

*Warren Nott*

*Milwaukie Fire Department*

*Date of Death: February 4, 1956*

*Two 13 year olds were ice skating on "already rubbery ice" of Kellogg Lake when suddenly the ice gave way. One boy fell in about 100 feet off shore; the other made it to safety. The father of the boy who fell through the ice also fell through the ice trying to save his son.*

*Chief Nott and Firefighter Beason put a 24 foot ladder out to try to save the boys father, when the man grabbed the rungs the whole ladder broke through the ice. Chief Nott fell through with the ladder and drown.*
