Maritime Fire Service Operator Signature Page

A copy of this signature page and documentation of the applicants training must be included with the DPSST Maritime Fire Service Operator application when applying for Maritime Fire Service Operator certification. Do not send the entire Task Book. Only a certified Maritime Fire Service Operator in that specialty area may sign off the Task Book.

Attest: The information contained in this Task Book is true and correct to the best of my knowledge. I understand that a false or misleading statement on this document is subject to penalty under ORS 162.055, et al, and ORS 162.305 and may be cause to deny or revoke a fire service professional certification.

_____ Signature of Evaluator	_____ Printed name of Evaluator	_____ DPSST Fire #	_____ Date

<u>Evaluator Certification:</u> ___ Fire Boat Operator			
<u>Sections of chapter signed off by Evaluator:</u> ___ 6 Fire Boat Operator			
_____ Signature of Evaluator	_____ Printed name of Evaluator	_____ DPSST Fire #	_____ Date

Task Book Qualification Record Books (Task Book) have been developed for various certification levels within the Oregon Department of Public Safety Standards and Training (DPSST) system. Each Task Book lists the job performance requirements (JPRs) for the specific certification level in a format that allows a candidate to be trained and evaluated during three (3) sequential sessions. Successful performance of all tasks, as observed and recorded by a qualified and approved evaluator will result in the candidate's eligibility for DPSST certification.

To become certified at a specific level, the applicant must successfully complete the job performance requirements in sequence. Before a job performance evaluation can be taken, all requisite knowledge and skills must be satisfied. In addition, all relative task book evaluations must be checked off by the evaluator. When all prescribed requirements have been met, an application for Certification will be forwarded to DPSST. All certificates are mailed to the Training Officer at his/her department.

Note to departments: These JPRs serve as general guidelines. As such they are not intended to replace specific sequences of apparatus or equipment operation that may be outlined by manufacturer specifications. At all times, standard operating procedures of the department in which the evaluation is being conducted will govern. Departments should have available for evaluators a copy of manufacturer specifications and the department's standard operational guidelines.

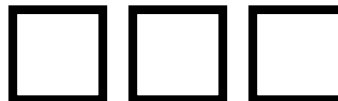

The JPRs covered in this Task Book meet or exceed all published standards for this certification level at the time of this publication. For more information on the complete job performance requirements and data, see the individual DPSST Test Book for that certification level.

HOW TO EVALUATE PERFORMANCE:

Each JPR has three corresponding boxes to the right in which to confirm a candidate's success in a sequence. The evaluator shall indicate successful passing by the candidate of each JPR by initialing and dating (see example). There is no time restriction or constriction between the three evaluations, as long as they are consecutive.

Example:

2-2.1 Perform the routine tests, inspections, and servicing functions specified in the following list, given a fire department aerial apparatus, so that the operational readiness of the apparatus is verified.

Three empty square boxes arranged horizontally, used for recording successful completion of tasks.

TASK BOOK QUALIFICATION RECORD

FOR THE CERTIFICATION LEVEL OF

Chapter 2 – Awareness

This level represents the minimum capability of a responder who, in the course of their regular job duties, could be called upon to respond to water related activities.

Prior to service on fire department boats and/or engaging in water related activities; the personnel shall meet the following Job Performance Requirements (JPR). The evaluator shall initial and date the appropriate boxes to indicate successful completion of each. For each JPR there are requisite knowledge and skill requirements. The evaluator of the first sequence shall initial and date in the box provided to indicate the meeting of those requirements.

- 2-2.1 Demonstrate the donning, operation, and doffing of the Personal Protective Equipment supplied by the Fire Department.
- Requisite Knowledge.** Personal Protective Equipment appropriate for the operating environment as determined by department policy and procedure.
- Requisite Skills.** The ability to properly select and use the appropriate PPE for the environment.
- 2-2.2 Self Rescue – Wearing the correct PFD, safely enter the water, orient self to meeting landmark, perform effective maneuvering to landmark, exit the water on shoreside, and report to meeting place.
- Requisite Knowledge.** Familiarity with local response hazards and rescue devices supplied by the department.
- Requisite Skills.** Ability to don and use personal flotation devices and the use of rescue devices supplied by the department.
- 2-2.3 Demonstrate the use of emergency equipment in/on the boat related to assigned duty.

Requisite Knowledge. Location and use of fire extinguishers, emergency procedures, and basic rescue equipment in/on the boat as supplied by the department.

Requisite Skills. Ability to use fire extinguishers and basic rescue devices supplied by the department.
