To increase the public’s trust, the Oregon legislature has mandated the Board on Public Safety Standards and Training establish minimum standards for all private security providers in the state. The minimum standards for this program are defined in Oregon Administrative Rule Chapter 259, Division 60. The Department of Public Safety Standards and Training (Department) is responsible for certifying and licensing private security professionals, instructors and managers who meet all of the Board-established standards, and for denying or revoking the certification or licensure of those who do not meet or fall below the standards.

The Professional Standards Ethics Bulletin has been developed as an educational tool aimed at providing insight and transparency into situations involving applicants for certification or licensure and current providers who may have violated the minimum standards. This publication is meant to provide insight into the types of behaviors that resulted in revocation, denial, suspension or civil penalty of private security certification and licensure over the last two months. The bulletin details the conduct and the resulting Department action. The names of the individuals in this bulletin have been omitted to ensure focus remains on the behavior. This is a sampling of cases and not meant to describe all past actions taken by the Department over the last two months.

Questions about these incidents or about the Department processes and procedures can be directed to Private Security (503) 378-8531 or dpsst.security@state.or.us.
