OREGON DEPARTMENT OF STATE LANDS

STRATEGIC PLAN

2022 - 2026
Oregon’s State Land Board oversees the Common School Fund, which sends millions of dollars every year to our K-12 public schools. As the State Land Board’s administrative agency, the Department of State Lands manages school lands, protects waters and wetlands, and is the state partner for South Slough National Estuarine Research Reserve.

**OUR WORK FOR OREGON**

**PROTECTING WATERS & WETLANDS**
DSL oversees removal-fill and wetland conservation laws and use of state-owned waterways. This work helps protect waters and wetlands for their many contributions to Oregon, including streams for swimming and fishing, wetlands to clean water and reduce flooding, and rivers where commerce thrives.

**MANAGING SCHOOL LANDS**
DSL manages 1.5 million acres of school lands in all 36 counties across the state. This work sends revenue to the Common School Fund and provides big community benefits – like leasing land to cattle ranchers in Eastern Oregon or helping attract family-wage businesses to Redmond through rezoning and sale of school lands.

**UNDERSTANDING & EXPLORING ESTUARIES**
South Slough Reserve provides research and education to support stewardship of estuaries and coastal watersheds in Oregon and beyond. Located on the South Slough inlet of the Coos Estuary in Charleston, the Reserve manages nearly 7,000 acres, including open water, wetlands, rivers, and forests.
