Process for Responding to Current ESH MAP Change Requests Updates

DSL Screening

- Requests for ESH designation changes and information queries are submitted to DSL's designated screener.
- DSL reviews requests for completeness, using a screening process that duplicates to the extent practical that currently being developed by Oregon Department of Agriculture for the Agricultural Drainage Channel Maintenance program.
- DSL submits the ODFW Fish Habitat Data Distribution request form to ODFW.

Map Change Requests Acted On

- ODFW reviews those requests forwarded by DSL and submits concurred requests (data updates) to DSL for Map updates.
- Formal responses to Map change requests are provided prior to the completion of this rulemaking process.
- An updated ESH Map is adopted by DSL.
