Ms. Vicki Walker
Director, Department of State Lands
77 Summer St, NE
Suite 100
Salem, Oregon 97301

Subject: Request for Extension of Time to Review Permit

Dear Director Walker:

Based on our recent conversations as well as the discussion that took place during the multi-agency meeting held on September 10, 2019 in Salem, we understand that it would be helpful for the Department of State Lands (DSL) to have some additional time in which to complete its review of our pending removal/fill application, including responding to comments received during the public review period. In addition, both parties have yet to finalize compensatory mitigation for wetlands and eelgrass, which we are coordinating with the U.S. Army Corps of Engineers. Currently, DSL is scheduled to issue a decision on September 20, 2019. After internal deliberations regarding the status of all of our state and federal permits, we believe it makes sense to set a timeline that brings all of our pending permits into alignment.

Therefore, pursuant to OAR 141-085-0560(6)(b), we hereby request that DSL extend the permit decision date for our removal/fill permit to January 31, 2020. We look forward to continuing to work with you and your staff to complete the process for the removal/fill permit in accordance with the applicable state regulations.

Please confirm whether this extension is acceptable to DSL. Should you have any questions or require further information, please let me know.

Regards,

Natalie Eades
