

404/401/Removal-fill certifications and permits: Pre-application meeting discussion topics

The discussion topics below outline information not contained in the [Joint Permit Application](#) that may be necessary for state agencies and federal services to evaluate the permit application after it is accepted by the U.S. Army Corps of Engineers and the Oregon Department of State Lands.

Please come to your pre-application meeting prepared to discuss, in whatever detail available, the items below for your proposed project. The agencies and services will provide feedback about your proposed project based on the answers to your previously submitted [input questions](#), and not all discussion topics will be discussed at the pre-application meeting

- Proposed project purpose and need
- Alternatives analyses
- Endangered Species Act concerns
- Mitigation sequence or plans
- Cultural and historical resources
- Tribal government resources
- Water quality impacts
- Other issues and concerns specific to each project
