

Data Governance & Transparency

Oregon's Data Governance & Transparency (DGT) Program, within Enterprise Information Services (EIS) and led by the Chief Data Officer, is responsible for statewide leadership, policy and guidance in the areas of data strategy, data governance, data analytics, open data and transparency.

Mission

Empowering the state of Oregon to leverage data as a strategic asset and steward data effectively and ethically throughout its lifecycle to improve the lives of Oregonians.

Data Value

Utilize data as a strategic asset to improve service delivery, facilitate cross-agency collaboration, identify cost savings and enhance transparency.

Priority Areas

- Enterprise Data Strategy
- Enterprise and Geospatial Data Governance
- Transparency and Open Data
- Data Delivery and Data Curation
- Enterprise Data Policy and Research

Program Goals

Advance Data Sharing

Lead the state in implementing Oregon's Data Strategy by providing plans, frameworks, standards, and training that advance data sharing and coordination across the enterprise.

Mature Data Governance

Establish enterprise data policy and research function to deliver guidance to Agencies in critical data areas.

Expand Service Delivery

Support and monitor the daily operations of Data Governance and Transparency (DGT) to improve service delivery to the enterprise.

Bridge Data Communities Across the State

Deliver high quality data products for use and analysis by State Agencies and the public.

Reinvigorate Open Data and Transparency

Maturing open data and transparency Statewide and ensuring constituents have access to meaningful data about how State government operates.
