

**2020 PLAIN PAPER SPECIFICATIONS  
EMPLOYEE DETAIL REPORT (132 DOMESTIC)**

To meet the Employee Detail Report (Form 132 Domestic) format requirements, data must be printed on plain, white 20# bond paper. Do not print any headings, columns, or instructions unless you find them in the specifications below. The print must be clear, black, and distinct. Use a 12 point Courier font. The objective is to create a clear, easily readable entry for our Optical Character Reader (OCR) scanner. Testing has shown that reports are read much more accurately if prepared using capital letters rather than changing cases or using lower case. Use CAPITAL LETTERS ONLY.

**To verify data is in the correct position, place your printout under a drop out red form. All data should be in the exact order, position, and spacing as found on the Form 132 Domestic.**

Line spacing is exactly six vertical lines per inch and column spacing is ten horizontal character positions per inch. For alignment purposes, the top of the page is the top of print line 1; the bottom of the form is the print line 66; the left edge is the left side of the print position 1; and the right edge is the right side of print position 85. Beginning with this alignment, space the Employee Detail Report according to the following specifications:

<u>Item</u>	<u>Line Spacing</u>	<u>Column Positions</u>	<u>Print Formats</u>

**Form ID Barcode Specification:**

- Form ID string is 8 characters: first 4 digits represent form ID number; the last 4 digits represent the revision month/year.
- Code 39 (also called code 3 of 9) barcode is required.
- The Form ID barcode should be placed at 3/8" below the top paper edge, and 1 3/16" off the right paper edge.
- A 3/8" margin from the paper edge.
- Barcode dimension is 2.0" wide and 3/8" high.
- The form ID string should be printed 1/8" beneath the barcode in 12 point Courier Bold font.

**Target Mark Specification:**

Target marks are used to accurately determine the location of all OCR fields.

- Place target marks 3/8" away from the paper edge.
- Each form should have 2 target marks, placed in the upper left and bottom right corners.
- A target mark is a solid black circle 1/8" in diameter, and surrounded by a thin ring printed in drop-out ink. The maximum space between the black circle and the drop-out ring is 1/32". The purpose of the two-tone target mark is to make certain the two-step print is aligned.

Upper – left target mark

Bottom – right target mark
