

## Oregon Statewide Data Center Advisory Committee Members

---

**Michael Jung, energy and climate policy professional, Co-Chair**

Michael Jung is a recognized energy policy leader with experience across cleantech, utilities, and government. He most recently led government affairs at Modern Hydrogen and previously served as founding Executive Director of the ICF Climate Center.

Michael has been an early team member at several successful clean technology startups, including Utilidata, Varentec (acquired by Sentient Energy), and Silver Spring Networks (acquired by Itron). He chaired an energy task force for Oregon Governor John Kitzhaber and crafted landmark electricity legislation as a policy advisor to Ohio Governor Ted Strickland's campaign and administration.

---

**Margaret Hoffmann, Council Member on the Northwest Power and Conservation Council, Co-Chair**

---

Margaret Hoffmann has worked extensively on public policy across public safety, health care, climate change, energy, and land use in both public and private sectors. Oregon Governors John Kitzhaber and Kate Brown appointed her as Energy Policy Advisor, where she developed Oregon's first 10-Year Energy Action Plan. She later served as senior management at Farmers Conservation Alliance, growing their irrigation modernization program across five western states and creating a \$1B pipeline of projects.

From 2021 to 2024, President Biden appointed Hoffmann as USDA Rural Development State Director for Oregon, where she led over \$1B in investments for broadband, entrepreneurship, clean water, and healthcare in rural communities.

**Jean Wilson, Operating Partner, Sandbrook Capital, Member**

Jean is an Operating Partner at Sandbrook Capital. She has over 30 years of executive-level experience with solar and wind project development.

Prior to joining Sandbrook, Jean served as Senior Vice President Business Development of Pattern Energy, where she worked on numerous ground-breaking projects including the largest on-shore wind farm in the US. Before that, she was a Senior Vice President at SunPower, where she built the company's large scale-solar power plant business in the US, Chile and Mexico, developing some of the largest solar photovoltaic power plants in the world. Jean serves on the board of the Oregon Environmental Council where she is Chair Emeritus.

Jean holds a Bachelor of Science in finance from the University of Southern California and a Master of Business Administration from Stanford University.

---

**Greg Dotson, Associate Professor of Law, University of Oregon School of Law, Member**

Professor Greg Dotson is a nationally recognized expert on energy and environmental law. His research has been published in leading law review journals. Dotson has held senior staff positions in both the U.S. Senate and the U.S. House of Representatives. He currently serves on the Oregon Climate Action Commission and the Oregon Attorney General's Federal Oversight and Accountability Cabinet.

**Dan Dorran, Commission Chair, Umatilla County, Member**

After being honorably discharged from the US Army, Dan attended Blue Mountain Community College and Oregon State University. Dan worked for Atlas Copco, a global manufacturing and engineering firm for 28 years. He served in many senior executive roles including VP of Operations, VP of Sales and VP of Mergers and Acquisitions.

For the last 5 years, Dan has served as a Umatilla County Commissioner with major focus on energy, economic development, transportation and agriculture. With a nexus of economic development, all issues are front and center and critical to the future of Umatilla County.

Bill Edmonds is an Adjunct Professor at the University of Portland and formerly served in a similar role at Portland State University. He is an energy policy expert with extensive public- and private-sector experience, most recently serving as Executive Director of the Northwest Power and Conservation Council.

**Bill Edmonds, Adjunct Professor, University of Portland, Member**

---

Tim Miller brings decades of executive and Board experience to his work at the nexus of business, climate, and equity. Before leading Oregon Business for Climate, Miller advanced energy efficiency as CEO of Enhabit, consulted with 30 businesses and orgs, and managed teams at Intel, CitySearch, O'Neill, and others.

Background: MBA and BA, Stanford University.

**Tim Miller, Director, Oregon Business for Climate, Member**
