Description of proposed change: (Please attach any draft or permanent rule or ordinance) Reorganization of Division 27 and rewrite of rules governing requests for amendments to site certificates.

Description of the need for, and objectives of the rule: The changes to the rules in Chapter 345, Division 27 are needed to improve the process by which EFSC reviews requests for amendment to a site certificate that are submitted by energy facility site certificate holders. In addition, the proposed rules are intended to clarify points of past confusion in existing rules and improve the organization of the Division 27 rules in general. In particular, EFSC stakeholders have asked EFSC staff and EFSC members to review and, to whatever extent possible, make changes to the Council's amendment review processes to bolster the public's opportunity for participation and, to whatever extent possible, make the amendment review processes more efficient. In turn, EFSC members have directed EFSC staff to conduct a rulemaking to rewrite and reorganize the Division 27 rules, especially those governing the review processes of requests for amendment to a site certificate.

List of rules adopted or amended: The proposed renumbering of OAR 345-027-0020 to 345-025-0006, 345-027-0023 to 345-025-0010, 345-027-0028 to 345-025-0016.
