Description of proposed change: (Please attach any draft or permanent rule or ordinance) Establishes process to issue renewable energy certificates for thermal energy from biomass-based electricity generation

Description of the need for, and objectives of the rule: The primary purpose of these proposed rules is to implement Senate Bill 1547 (2016), Oregon Laws 2016 chapter 28, which requires the Oregon Department of Energy to establish a system for issuing renewable energy certificates for facilities generating electricity using biomass that also generate thermal energy for a secondary purpose. The proposed rules add definitions related to thermal renewable energy certificates; specify eligible facilities and qualifying thermal energy; and provide requirements for metering, monitoring and reporting of qualifying thermal energy.
