

How does ODOE calculate incentive program fees?

In addition to an application fee, ODOE charges technical and final review fees. ODOE calculates these fees, using a qualifying project’s cost. ODOE determines cost based on the amount of tax credit certified. Project owners, who choose to use the pass-through program, will pay a fee based on the tax credit amount, level of assistance and number of pass-through partners (not applicable for renewable energy development grants).

Type of Project/System	Application Fee	Technical Review Fee	Final Review Fee
Conservation: Small Premium Projects	\$75	None	0.55% (0.0055) of qualifying project costs (maximum \$110)
Conservation: Competitive Projects	\$500	0.9% (0.009) of qualifying project costs (maximum \$90,000)	0.55% (0.0055) of qualifying project costs (maximum \$55,000)
Transportation: Infrastructure or Fleets	\$300	0.9% (0.009) of qualifying project costs	0.55% (0.0055) of qualifying project costs
Renewable Energy Development	\$500	1.25% (0.0125) of qualifying project costs (maximum \$8,929)	None

Other Fees: Pass-through, transfers, amendments	
Pass-through (w/ODOE assistance)	1.25% (0.0125) of the tax credit amount, plus \$200 per tax credit certificate issued
Pass-through (w/o assistance)	\$200 per tax credit certificate issued
Transfer of a tax credit	\$200 + \$100 per tax credit certificate issued
Pass-through & Transfer - Small Premium Projects	\$200 + \$100 per each additional certificate issued (the \$100/certificate does not apply for the first certificate)
Amendments	\$300
