Re: Extension Request
Notice of Intent to Apply for a Site Certificate
Blue Marmot Solar Energy Facility
Lake County, Oregon

Dear Ms. Tardaewether:

Blue Marmot Solar Park LLC (the "Applicant") submitted a Notice of Intent to Apply for a Site Certificate for the Blue Marmot Solar Energy Facility (Facility) in Lake County, Oregon, on January 19, 2018 (the "NOI"). As part of the NOI, the Applicant provided a schedule stating that it expected to submit a preliminary site certificate application in April 2018. However, uncertainty over the commercial off-take arrangements for the Facility, including extensive proceedings before the Oregon Public Utility Commission regarding the Facility's transmission and energy delivery arrangements, have pushed back the Facility's development schedule. As a result, the Applicant has decided to delay submitting the site certificate application.

The Applicant remains confident in the Facility and continues to work towards resolution of the off-take matters that have impeded development progress to date. Therefore, we would like to request that the Energy Facility Siting Council grant the Applicant a one-year extension of the NOI such that it would expire on January 19, 2021. This would allow the Applicant time to seek sufficient clarity regarding the Facility's commercial arrangements to move forward with preparing and submitting a site certificate application.

Thank you for your assistance with this request for an extension. If you have any questions or require further information, please contact me at:
