Salem, OR 97301

Re: Wheatridge Wind Energy Facility Request for Transfer

Dear Ms. Esterson:

On May 17, 2017, Wheatridge Wind Energy, LLC provided notice of transfer of ownership to the Oregon Department of Energy ("Department") pursuant to OAR 345-027-0100(2). The notice disclosed that Swaggart Wind Power, LLC had recently sold the Facility, including the ownership of all membership interests in Wheatridge Wind Energy, LLC to Wheatridge Wind Holdings, LLC, an indirect subsidiary of NextEra Energy Resources, LLC ("NextEra"). The sale closed on April 5, 2017, at which time Wheatridge Wind Energy, LLC became a wholly-owned indirect subsidiary of NextEra.

Although Wheatridge Wind Energy, LLC will remain the site certificate holder and Facility owner and operator, the change in ownership requires NextEra to file a request to transfer the site certificate. Accordingly, the Request for Transfer of Ownership of the Wheatridge Wind Energy Facility ("Request"), along with the required supporting documentation related to organizational expertise and retirement and financial assurance, is attached hereto.

Note that there are two items that we are still in the process of preparing: (1) an updated property owners list (Attachment 1 to the Request) and (2) the legal opinion letter (Attachment M-1 to Revised Exhibit M). We will forward these items as soon as they become available.
Ms. Sarah Esterson, Siting Analyst
June 14, 2017

Request for Transfer of Ownership for the Wheatridge Wind Energy Facility

Prepared for Oregon Energy Facility Siting Council

June 2017

Submitted by Wheatridge Wind Energy, LLC and NextEra Energy Resources, LLC
SECTION 1
Introduction

The Wheatridge Wind Energy Facility is a permitted wind-energy generation facility in Morrow and Umatilla counties that will produce up to 500 megawatts of electricity ("Facility"). On April 28, 2017, the Energy Facility Siting Council ("Council") issued a final order approving the application for site certificate for the Facility. The Chair of the Council signed the site certificate for the Facility ("Site Certificate") on April 28, 2017, and the Site Certificate became effective upon execution by the applicant, Wheatridge Wind Energy, LLC, on May 24, 2017.

On May 17, 2017, Wheatridge Wind Energy, LLC provided notice of transfer of ownership to the Oregon Department of Energy ("Department") pursuant to OAR 345-027-0100(2). The notice disclosed that Swaggart Wind Power, LLC ("Swaggart"), Wheatridge Wind Energy, LLC’s parent company, had recently sold the Facility, including the ownership of all membership interests in Wheatridge Wind Energy, LLC, to Wheatridge Wind Holdings, LLC, an indirect subsidiary of NextEra Energy Resources, LLC ("NextEra"). The sale closed on April 5, 2017, at which time Wheatridge Wind Energy, LLC became a wholly owned indirect subsidiary of NextEra. That transaction prompted this transfer request ("Transfer Request").

1.1 Proposed Transfer Request

Wheatridge Wind Energy, LLC ("Certificate Holder") will remain the Facility owner and operator. The change in the Certificate Holder’s ownership structure, however, requires NextEra to file a request to transfer the Site Certificate under OAR 345-027-0100. This request will confirm that NextEra, as Certificate Holder’s new parent company, complies with the applicable Council standards, as set forth in OAR 345-027-0100(8).

Transfer Request

A transfer request is governed under OAR 345-027-0100. OAR 345-027-0100(4) provides:

To request a transfer of the site certificate, the transferee shall submit a written request to the Department that includes the information described in OAR 345-021-0010(1)(a), (d), (f) and (m), a certification that the transferee agrees to abide by all terms and conditions of the site certificate currently in effect and, if known, the date of the transfer of ownership. If applicable, the transferee shall include in the request the information described in OAR 345-021-0010(1)(y)(O)(iv).

The information required by OAR 345-027-0100(4) is included in this Transfer Request. Section 2 addresses the requirements for transfer and is supported by the following:

- Attachment 1 provides the property owner list required by OAR 345-021-0010(1)(f) and OAR 345-027-0100(4)
Attachment 2 includes the information required by OAR 345-021-0010(1)(a), (d) and (m) (corresponding to Exhibits A, D and M of an application for site certificate).

1.2 Summary of Modifications

As described above, this Transfer Request seeks Council approval of the change in the Certificate Holder's ownership structure. This request does not seek to enlarge the existing site boundary or physical components of the Facility. There is no change to the maximum number of turbines or maximum generating capacity of the Facility from what was originally authorized.

1.3 Regulatory Framework for This Request

This request is organized in accordance with OAR 345-027-0100, which sets forth the required contents of a request to transfer.

SECTION 2
Transfer of Site Certificate Pursuant to OAR 345-027-0100

OAR 345-027-0100 Transfer of a Site Certificate:

(1) For the purpose of this rule:

(a) A transfer of ownership requires a transfer of the site certificate when the person who will have the legal right to possession and control of the site or the facility does not have authority under the site certificate to construct, operate or retire the facility;

Response: Pursuant to OAR 345-027-0100(4), NextEra is submitting the request for the Council's approval of the ownership transfer of the Certificate Holder from Swaggart to NextEra. While the Site Certificate for the Facility will still be held by the Certificate Holder, the parent company is now NextEra. The articles of incorporation for NextEra are provided in Attachment 2.

NextEra, as the new parent company of the Certificate Holder, has the legal right to possess and control the Facility. The transaction between Swaggart and NextEra has closed, effective April 5, 2017, and this Transfer Request effectuates the Certificate Holder's ability to move forward with development of the Facility.

(b) "Transferee" means the person who will become the new applicant and site certificate holder.

Response: See response to (2) below.

(2) When a certificate holder has knowledge that any transfer of ownership of the facility that requires a transfer of the site certificate is or may be pending, the certificate holder shall notify
the Department of Energy. In the notice, the certificate holder shall include, if known, the name, mailing address and telephone number of the transferee and the date of the transfer of ownership. If possible, the certificate holder shall notify the Department at least 60 days before the date of the transfer of ownership.

Response: NextEra notified the Department of the transfer of ownership on May 17, 2017. This requirement has been met.

Certificate Holder’s name and address are:

Wheatridge Wind Energy, LLC
700 Universe Boulevard
Juno Beach, FL 33408

Contact person, address and phone number:

Melissa Hochmuth, Project Director - Development
NextEra Energy Resources, LLC
700 Universe Boulevard
Juno Beach, FL 33408
Phone: (561) 694-4638
Email: Melissa.Hochmuth@nexteraenergy.com

(3) The transferee is not allowed to construct or operate the facility until an amended site certificate as described in section (10) or a temporary amended site certificate as described in section (11) becomes effective.

Response: The Facility has not yet been constructed. Certificate Holder will not begin construction until the Transfer Request has been approved.

(4) To request a transfer of the site certificate, the transferee shall submit a written request to the Department that includes the information described in OAR 345-021-0010(1)(a), (d), (f) and (m), a certification that the transferee agrees to abide by all terms and conditions of the site certificate currently in effect and, if known, the date of the transfer of ownership. If applicable, the transferee shall include in the request the information described in OAR 345-021-0010(1)(g)(i)(iv).

Response: Attachment 1 of this Transfer Request includes an updated property owner list. Attachment 2 of this Transfer Request includes information required under Exhibits A, D and M describing NextEra’s organizational expertise and retirement/financial assurance. NextEra certifies that it agrees to abide by all the terms and conditions of the Site Certificate currently in effect and all terms and conditions that will result from this request.

(5) The Department may require the transferee to submit a written statement from the current certificate holder, or a certified copy of an order or judgment of a court of competent jurisdiction, verifying the transferee’s right, subject to the provisions of ORS Chapter 469 and the rules of this chapter, to possession of the site or the facility.

Response: Attachment 2 of this Transfer Request includes a written statement from Swaggart regarding the sale of the Facility, including the ownership of all membership interests in
Wheatridge Wind Energy, LLC to Wheatridge Wind Holdings, LLC, an indirect subsidiary of NextEra.

(6) Within 15 days after receiving a request to transfer a site certificate, the Department shall send a notice of the request by mail or email to the reviewing agencies as defined in OAR 345-001-0010, to all persons on the Council’s general mailing list as defined in OAR 345-011-0020, to any special list established for the facility and to the updated property owner list submitted by the transferee under subsection (4). In the notice, the Department shall describe the transfer request, specify a date by which comments are due and state that the date of the Council’s informational hearing will be announced on the Department’s website.

(7) Before acting on the transfer request, the Council shall hold an informational hearing. The Council shall hold the informational hearing during a Council meeting and shall provide notice of the hearing on its meeting agenda, which will be sent by mail or email to the Council’s general mailing list in advance of the meeting. The informational meeting is not a contested case hearing.

(8) At the conclusion of the informational hearing or at a later meeting, the Council may issue an order approving the transfer request if the Council finds that:

(a) The transferee complies with the standards described in OAR 345-022-0010, OAR 345-022-0050 and, if applicable, OAR 345-024-0710(1); and

(b) The transferee is lawfully entitled to possession or control of the site or the facility described in the site certificate.

Response: Attachment 2 of this Transfer Request includes Exhibits A, D and M (consistent with the application requirements of OAR 345-021-0010) to demonstrate NextEra’s compliance with the standards in OAR 345-022-0010 (Organizational Expertise) and OAR 345-022-0050 (Retirement and Financial Assurance). OAR 345-024-0710(1) relates to the “monetary path” option for compliance with the Council’s carbon dioxide emissions standard, and therefore is not applicable to the Facility. As described above, NextEra has the legal right to possess the Facility.

(9) Except as described in section (12), the Council shall not otherwise change the terms and conditions of the site certificate in an order approving the transfer request.

(10) Upon issuing the order described in section (8), the Council shall issue an amended site certificate that names the transferee as the new certificate holder. The amended site certificate is effective upon execution by the Council chair and the transferee. The Council shall issue the amended site certificate in duplicate counterpart originals and each counterpart, upon signing, will have the same effect.

(11) If the Council chair determines that special circumstances justify emergency action, the Council chair may, upon a written request from the transferee that includes a showing that the transferee can meet the requirements of section (8), issue a temporary amended site certificate that names the transferee as the new certificate holder. The temporary amended site certificate is effective upon execution by the Council chair and the transferee. The temporary amended site certificate expires when an amended site certificate as described in section (10) becomes effective or as the Council otherwise orders.

Response: The parties are not requesting a temporary amended site certificate.

1.0 Introduction

Exhibit A provides contact information for the Wheatridge Wind Energy Facility (Project) proponent and other entities assisting Wheatridge Wind Energy, LLC (Wheatridge) in the permitting process, as required by Oregon Administrative Rule (OAR) 345-021-0010(1)(a) paragraphs (A) through (H). This exhibit provides evidence to support a demonstration of compliance with the Organizational Expertise standard of OAR 345-022-0010, which is addressed in detail in Exhibit D of this application.

2.0 Applicant Contact Information – OAR 345-021-0010(1)(a)(A)

Name and mailing address of Applicant:

John DiDonato
Vice President Development
NextEra Energy Resources LLC
FEW/JB
700 Universe Blvd
Juno Beach, FL 33408
John.DiDonato@nexteraenergy.com
(5561) 691-7232

Contact Persons other than Applicant:

Melissa Hochmuth
Project Director Development
NextEra Energy Resources LLC
FEW/JB
700 Universe Blvd
Juno Beach, FL 33408
Melissa.Hochmuth@nexteraenergy.com
(561) 694-4638
Michael Pappalardo  
Environmental Manager  
NextEra Energy Resources LLC  
3256 Wintercreek Drive  
Eugene, Oregon 97405  
Mike.Pappalardo@nexteraenergy.com  
(541) 206-1005  

3.0 Other Participants – OAR 345-021-0010(1)(a)(B)  

No other participants are anticipated at this time, with the exception of potential third party permits that would be obtained by the construction firm selected to build the Project. Wheatridge anticipates that these third-party permits may include permits for obtaining aggregate and other construction materials, transporting materials to the site, and other building-related permits that are typically obtained immediately prior to construction activities. Wheatridge anticipates that these permits would meet the facility standards adopted by the Energy Facility Siting Council.  

4.0 Limited Liability Company Information – OAR 345-021-0010(1)(a)(H)  

Wheatridge, a Delaware limited liability company, was recently acquired by NextEra Energy Resources, LLC (NEER) from Swaggart Wind Power, LLC. Swaggart Wind Power, LLC sold the Project, including the ownership of all membership interests in Wheatridge to Wheatridge Wind Holdings, LLC, an indirect subsidiary of NEER. The sale closed on April 5, 2017, at which time Wheatridge became a wholly-owned indirect subsidiary of NEER. The articles of organization are provided in Attachment A-1. Proof of registration to do business in Oregon is provided in Attachment A-2. A written consent for filing this application is provided in Attachment A-3.  

5.0 Other Affiliations – OAR 345-021-0010(1)(a)(C) through (F)  

Wheatridge is a wholly-owned indirect subsidiary of NEER. The full name and address of NEER is provided in Section 2.0.

Re: Wheatridge Wind Energy Facility - Request for Transfer

Dear Ms. Esterson,

This letter is to confirm that Swaggart Wind Power, LLC ("Swaggart") recently sold the Wheatridge Wind Energy Facility ("Facility"), including the ownership of all membership interests in Wheatridge Wind Energy, LLC, to Wheatridge Wind Holdings, LLC, an indirect subsidiary of NextEra Energy Resources, LLC ("NextEra"). The sale closed on April 5, 2017, at which time Wheatridge Wind Energy, LLC became the wholly-owned indirect subsidiary of NextEra. Accordingly, Swaggart acknowledges that NextEra, as Wheatridge Wind Energy, LLC’s new parent company, may file a request to transfer the Site Certificate under OAR 345-027-0100.

Sincerely,

1.0 Introduction

Exhibit D describes the sources and organizational, managerial and technical expertise extent of the Applicant, Wheatridge Wind Energy, LLC (Wheatridge), as required to meet the submittal requirements of Oregon Administrative Rule (OAR) 345-021-0010 (1)(d), paragraphs (A) through (G). This Exhibit also provides the qualifications of known contractors assisting in design and construction of the Wheatridge Wind Energy Facility (Project). This Exhibit shows that the Project complies with OAR 345-022-0010:

345-022-0010 Organizational Expertise

(1) To issue a site certificate, the Council must find that the applicant has the organizational expertise to construct, operate and retire the proposed facility in compliance with Council standards and conditions of the site certificate. To conclude that the applicant has this expertise, the Council must find that the applicant has demonstrated the ability to design, construct and operate the proposed facility in compliance with site certificate conditions and in a manner that protects public health and safety and has demonstrated the ability to restore the site to a useful, non-hazardous condition. The Council may consider the applicant’s experience, the applicant’s access to technical expertise and the applicant’s past performance in constructing, operating and retiring other facilities, including, but not limited to, the number and severity of regulatory citations issued to the applicant.

(2) The Council may base its findings under section (1) on a rebuttable presumption that an applicant has organizational, managerial and technical expertise, if the applicant has an ISO 9000 or ISO 14000 certified program and proposes to design, construct and operate the facility according to that program.

(3) If the applicant does not itself obtain a state or local government permit or approval for which the Council would ordinarily determine compliance but instead relies on a permit or approval issued to a third party, the Council, to issue a site certificate, must find that the third party has, or has a reasonable likelihood of obtaining, the necessary permit or approval, and that the applicant has, or has a reasonable likelihood of entering into, a contractual or other arrangement with the third party for access to the resource or service secured by that permit or approval.

(4) If the applicant relies on a permit or approval issued to a third party and the third party does not have the necessary permit or approval at the time the Council issues the site certificate, the Council may issue the site certificate subject to the condition that the certificate holder shall not commence construction or operation as appropriate until the third party has obtained the necessary permit or approval and the applicant has a contract or other arrangement for access to the resource or service secured by that permit or approval.
2.0 Applicant's Previous Experience – OAR 345-021-0010(1)(d)(A)

Wheatridge is a wholly-owned indirect subsidiary of NextEra Energy Resources, LLC (NEER). NEER, headquartered in Juno Beach, Florida, is the world’s largest generator of renewable energy from the wind and sun. NEER is a regionally diversified company with approximately 5,000 employees dedicated to the production of approximately 19,882 megawatts from 175 facilities in 29 states and Canada. With more than 9,365 wind turbines in its fleet, NEER’s wind generation capacity totals more than 13,851 megawatts. NEER is also capable of generating more than 420 net megawatts of electricity from natural gas facilities; operates three nuclear power plants with a capacity of more than 2,700 megawatts; and operates more than 2,100 megawatts of solar energy. It is estimated that nearly 95 percent of the electricity produced by NEER comes from clean or renewable sources.

Along with its rate regulated sister company, Florida Power and Light, NEER is a wholly owned subsidiary of NextEra Energy, Inc. (NYSE NEE). NextEra Energy, Inc. is a Fortune 150 Company with a market capitalization of approximately 66 billion dollars. The financial strength of NEER and its parent company provides the company with the financial capital to self-finance and build up to 4 billion dollars of projects per year on its own balance sheet.

Within Oregon, NEER subsidiaries—FPL Vansycle, LLC and FPL Energy Stateline II—constructed, own, and operate 186 turbines, with a total peak generating capacity of 123 megawatts (MW) at the Stateline 1 and 2 wind energy facilities, and 43 turbines with a total peak generating capacity of 99 MWs at the Stateline 3 Wind Energy Facility. FPL Vansycle, LLC and FPL Energy Stateline II were permitted through the Oregon Energy Facility Siting Council (EFSC) process, and were issued a Site Certificate with Amendments under the name Stateline Wind Project.

3.0 Qualifications of Applicant's Personnel - OAR 345-021-0010(1)(d)(B)

The development activities in Morrow and Umatilla counties undertaken by Wheatridge were originally conducted as part of a partnership between MAP Royalty, Inc. and an experienced team of development professionals based in Oregon who have a long history of regional wind project development. Under its new ownership, the Wheatridge will continue to benefit from an experienced team of professionals based in Oregon, as well as other locations throughout the continental United States.

The original Stateline Site Certificate was issued in 2001. Since then, the initial Site Certificate was amended several times to, among other reasons, accommodate new and expanded facilities. Members of the Wheatridge team were directly involved in the initial permitting of the Stateline facilities, as well as the subsequent amendments to the original site certificate. As a result, through its parent company Wheatridge and its management team have a direct lineage to the some of the
oldest continuously owned and operated wind energy facilities in Oregon. Through this relationship, the Wheatridge management team and the NEER family of companies have deep regional expertise, derived over years of successfully permitting and operating hundreds of MWs of wind energy projects in the Oregon. NEER employees have deep local ties to the communities we operate in and a solid history of understanding local economic development, permitting, environmental concerns and compliance with the various conditions stipulated within an EFSC site certificate.

**Wheatridge Management Team Biographies**

**Melissa Hochmuth** – Ms. Hochmuth is a Project Director for NEER's Wind Development organization. Her responsibilities include overseeing all aspects of project development, including land acquisition, permitting, layout and design, stakeholder relations, and commercial negotiations for wind projects in the western United States. Ms. Hochmuth joined the company in 2008 and has almost nine years of experience in the energy industry, first as a subject matter expert managing air and water permitting compliance for the company's operating assets, then as a regulatory analyst for environmental issues, and most recently as a developer for NEER's wind assets. For the past four years, Ms. Hochmuth has managed a pipeline of over 2,000 MW of wind development projects in the upper Midwest, and at the end of 2016, two of her projects (300 MW total) went operational in North Dakota. In 2017, Ms. Hochmuth took over responsibility for managing projects in the western United States, including the Project. Melissa earned a Bachelor of Arts Degree in Political Science, as well as a Juris Doctor Degree, from the University of Florida.

**Mike Pappalardo** – Mr. Pappalardo is an Environmental Services Manager for NEER's Environmental Services Department. His responsibilities include permitting NEER projects in the western United States, primarily in the Pacific Northwest, California, and Wyoming. Mr. Pappalardo joined the Company in 2008 and is based in Eugene Oregon. Mr. Pappalardo has twenty eight years of experience in environmental permitting and the development of natural resource related projects in the continental United States, Alaska and Hawaii and South America. He began working in renewable energy in 2001 on the Stateline Wind Project and since then he has worked on renewable energy projects throughout the United States. His work at NEER includes managing environmental permitting efforts for projects including the Stateline/Vansycle Wind projects in Oregon and the 160 MW North Sky River Wind Energy Facility (California). Recently Mr. Pappalardo obtained permits for the 48 MW Golden Hills North project in California. This effort began in 2009 and represents the third and final phase of NEER's efforts to remove nearly three thousand "old technology" turbines and "repower" all of the company's assets with 102 modern turbines generating approximately 210 MWs. The successful repowering effort represents roughly 60 percent of the energy output at the Altamont Pass Wind Resource Area in California. Previously, Mr. Pappalardo was a Project Manager for CH2M HILL in Corvallis Oregon where he was the project manager responsible for obtaining Amendments to the Stateline Site Certificate as well as obtaining the Site Certificate for the 450 MW Biglow Wind Project in Sherman County (Oregon). Mr. Pappalardo also supported the permitting for the Klondike and Leaning Juniper Wind Projects in OR and lead the effort to permit the 100.8 MW Kittitas Valley and 273 MW Wildhorse wind projects.
in Washington. Before joining CH2M Hill, Mr. Pappalardo worked for Stoel Rives LLP where he served as in-house technical consultant to the law firm's environmental practice group and prior to that he worked as a geologist and hydrogeologist throughout the western United States, Alaska, and Argentina. Mr. Pappalardo earned a Bachelor of Science degree in geology from the University of Oregon and is a Registered Geologist in Oregon and a Licensed Geologist in Washington. He resides in Eugene, Oregon.

**John Schajatovic** – John Schajatovic is a Senior Project Manager for NEER, responsible for the early stage management within the Engineering & Construction Department. Since joining NEER in September of 2010, Mr. Schajatovic has supported the engineering, design, permitting, and successful turnover to execution teams for multiple wind development projects and associated transmission lines throughout the United States and Ontario. Prior to joining NEER, Mr. Schajatovic served in various project management roles, and has been responsible for all phases of infrastructure projects, from inception to completion. He has worked in the private construction sector and with public development companies. Mr. Schajatovic has a BS degree in Business Administration from Youngstown State University in Ohio.

### 4.0 Qualifications of Known Contractors - OAR 345-021-0010(1)(d)(C)

At this point in time, Wheatridge has not selected a turbine manufacturer for the Project's wind turbines or a specific contractor to construct the Project. This said, based on its team's vast experience and the parent company's portfolio as the largest provider of renewable energy in North America and the world, Wheatridge will select qualified contractors, engineers, and manufacturers with experience in the wind industry.

Wheatridge and its parent company have extensive relationships with all the major wind turbine manufacturers as well as with the chief building-of-plant contractors in the United States. Wheatridge has also relied on the input of external consultants with decades of relevant experience developing successful wind energy facilities in the Pacific Northwest.

### 5.0 Applicant's Past Performance - OAR 345-021-0010(1)(d)(D)

#### 5.1 Construction and Operation

Wheatridge managers have substantial experience in managing all aspects of development, preconstruction and operational activities at multiple wind energy projects across the United States and Canada. The Wheatridge team can also rely on a deep bench of corporate professionals who manage more than 9,365 wind turbines generating more than 13,851 megawatts at approximately 110 wind energy facilities across the United States and Canada, over 80 percent of which were
constructed by NEER subsidiaries. Wheatridge's parent company also includes more than 5,000 professionals working in various departments including operations and maintenance, development, and land services, environmental services and construction and engineering and in-house corporate legal services. Additionally, the Wheatridge team can rely on WindLogics an indirect, wholly owned subsidiary of NEER and one of the wind industry's premier meteorological firms with core competencies in meteorology, applied mathematics and data analytics.

5.2 Regulatory Compliance

In previous pre-construction activities, neither Wheatridge nor its managers have been in violation of any rules or regulations.

5.2.1 Successful Completion of Mitigation Projects

Wheatridge relies on mitigation to demonstrate compliance with several approval standards, most importantly with the Oregon Department of Fish and Wildlife fish and wildlife habitat goals and standards, addressed in Exhibit P of this application. Wheatridge managers have substantial experience in designing habitat mitigation projects. Wheatridge will rely on the experience and expertise of Mr. Mike Pappalardo and Northwest Wildlife Consultants, Inc. (NWC) to successfully complete the mitigation required for the Project. Additionally, Wheatridge has acquired a conservation easement in Gilliam County for 200 acres, within a 320-acre parcel, and with the ability expand the mitigation parcel if needed (Attachment D-1).

As noted above in Section 3.0, Mr. Pappalardo has approximately 28 years of experience in environmental management including more than 16 years of experience permitting wind energy projects. He has successfully obtained or amended Site Certificates and county Conditional Use Permits with mitigation requirements for the Biglow and Stateline wind projects in Oregon, as well as Conditional Use Permits for the Vasco, Golden Hills, Golden Hills North, North Sky River and Palm Springs Repower projects in California.

Wheatridge is working with NWC to implement habitat mitigation. NWC and its personnel (Karen Kronner, Bob Gritski, and others) have demonstrated success at all aspects of such a mitigation process as required for the Project, including drafting of initial concepts, contacting owners of potentially suitable mitigation areas, assessing (in concert with appropriate agency personnel) the suitability of such lands, implementation of protection and enhancement measures, monitoring of effectiveness, and validation of successful completion. Oregon and Washington wind energy projects for which NWC has completed some or all of these mitigation components include both those associated with county Conditional Use Permits and EFSC projects; some of these are Stateline 2, Stateline 3, Klondike III, Leaning Juniper I, Leaning Juniper II, Pebble Springs, Willow, Star Point, Rattlesnake Road, and Wheat Field.
6.0 Warranty to Secure Necessary Expertise - OAR 345-021-0010(1)(d)(E)

Not applicable.

7.0 Not an ISO Certified Program

Wheatridge does not propose to design, construct or operate the facilities according to an International Organization for Standardization (ISO) 9000 or ISO 14000 certified program.

Attn: Aleathia M. Hoster

MEMORANDUM OF OPTION FOR CONSERVATION EASEMENT

On the 28th day of November, 2014, Robert Gritski and Karen Kronner, as Owners, granted to Wheatridge Wind Energy, LLC, a Delaware limited liability company, as Optionee, an option to acquire one or more Conservation Easements to no more than 200 acres of the following described Gilliam County, Oregon real property, to which reference is made for all statements, matters, and things therein contained:

See Exhibit A which is attached hereto and by this reference incorporated herein.

The term of the option shall expire no later than eight years after the date of this memorandum first set forth above. Reference should be made to the option agreement for further particulars.

DATED this 28th day of November, 2014.

Optionee: Wheatridge Wind Energy, LLC

1.0 Introduction

Exhibit M provides information on Wheatridge Wind Energy, LLC’s (Wheatridge) financial capability, including the Retirement and Financial Assurance as required for the Energy Facility Siting Council (EFSC) to make the appropriate findings under Oregon Administrative Rule (OAR) 345-022-0050(2):

345-022-0050 Retirement and Financial Assurance

To issue a site certificate, the Council must find that:

(1) The site, taking into account mitigation, can be restored adequately to a useful, non-hazardous condition following permanent cessation of construction or operation of the facility.

(2) The applicant has a reasonable likelihood of obtaining a bond or letter of credit in a form and amount satisfactory to the Council to restore the site to a useful, non-hazardous condition.

As discussed in Exhibit W, in the very unlikely event that a permanent cessation of construction or operation of the Wheatridge Wind Energy Facility (Project) occurs, the site can be restored to a useful, non-hazardous condition. However, in this Exhibit, Wheatridge will establish that it has a reasonable likelihood of obtaining a bond or letter of credit in a form and amount satisfactory to EFSC to restore the site to a useful, non-hazardous condition, as discussed below.

2.0 Opinion of Legal Counsel

Attachment M-1 is an opinion from NextEra Energy Resources, LLC’s in-house legal counsel, indicating that Wheatridge has the legal authority to construct and operate the Project without violating its articles of incorporation or similar agreements.

3.0 Proposed Type and Amount of Financial Instrument

Prior to beginning construction on the Project, Wheatridge will submit a bond, bonds, or letter(s) of credit to the State of Oregon in an amount equal to the net costs of Project retirement as detailed in Exhibit W. The bond(s) or letter(s) of credit will be provided in a form approved by EFSC and will ensure that adequate funds exist for the retirement of the Project and for restoration of the Project site to a useful, non-hazardous condition. The bond(s) or letter(s) of credit will be adjusted annually for inflation according to the Gross Domestic Product Implicit Price Deflator Index.
4.0 Evidence of Reasonable Likelihood of Obtaining Security

Wheatridge has obtained a letter from one of the company’s relationship banks (Attachment M-2) demonstrating the reasonable likelihood that they will be able to obtain a bond(s) in an amount equal to or greater than the cost of Project retirement as detailed in Exhibit W.

5.0 Conclusion

The evidence provided in this exhibit demonstrates that Wheatridge has a reasonable likelihood of obtaining a bond or letter of credit in an amount sufficient to restore the site to a useful, non-hazardous condition.

ATTACHMENT M-2. LETTER FROM WELLS FARGO BANK
This page intentionally left blank
June 8, 2017

Oregon Department of Energy
625 Marion Street NE
Salem, Oregon 97301-3737

Attention: Todd R. Cornett, Assistant Director, Siting Division

Dear Mr. Cornett:

NextEra Energy Resources, LLC ("NextEra"), the parent company of Wheatridge Wind Energy, LLC (the "Applicant") is a valued client of Wells Fargo Bank, N.A. ("Bank").

It is our understanding that NextEra (as the parent company of Wheatridge Wind Energy, LLC) may be asked to provide a letter of credit. It is further our understanding that the potential liability of the letter of credit could total an amount of up to eighteen million one hundred thousand dollars ($18,100,000.00).

Wells Fargo has an ongoing relationship with NextEra and there is a reasonable likelihood that we will provide a letter of credit for this project should it be required. This commitment is subject to our regular review and acceptance of the terms and conditions of the final contract and required letter of credit and approval by the Bank.

Furthermore, any arrangement for the final letter of credit is a matter between NextEra and the Bank and we assume no liability to third parties or you if, for any reason, we do no execute said letter of credit.

If you have any questions, please do hesitate to call me at (612) 667-0030.

Sincerely,

Jesse Tannuzzo
Assistant Vice President

Re: Wheatridge Wind Energy Facility Request for Transfer - Legal Opinion Letter

Dear Ms. Esterson:

On June 14, 2017, Wheatridge Wind Energy, LLC submitted a Request for Transfer of Ownership of the Wheatridge Wind Energy Facility ("Request"), along with the required supporting documentation. As we noted in the cover letter, we were still in the process of preparing: (1) an updated property owners list (Attachment 1 to the Request) and (2) the legal opinion letter (Attachment M-1 to Revised Exhibit M).

Please find attached hereto to the legal opinion letter prepared by Squire Patton Boggs, which should be included with the Request as Attachment M-1 to Revised Exhibit M.

Per your conversation with Mike Pappalardo earlier today, we are still in the process of securing the necessary ownership information from Morrow and Umatilla Counties and will provide the updated list as soon as it is available.
Ms. Sarah Esterson, Siting Analyst

Re: Wheatridge Wind Energy, LLC

Dear Ms. Esterson:

This firm has acted as special counsel to Wheatridge Wind Energy, LLC, a Delaware limited liability company (the "Certificate Holder") in connection with the Site Certification for the Wheatridge Wind Energy Facility and the Certificate Holder’s development, construction, operation and retirement of the wind farm located in Morrow and Umatilla Counties, Oregon (the “Wheatridge Project”).

For purposes of the opinions expressed in this letter, we have examined a certified copy of the Certificate of Formation of Wheatridge Wind Energy, LLC, filed with the State of Delaware Secretary of State, Division of Corporations on November 12, 2010 (the “COF”), and a copy of the Amended and Restated Limited Liability Company Agreement of Wheatridge Wind Energy, LLC, dated as of May 5, 2017, executed by Wheatridge Wind Holdings, LLC, as Sole Member (the “LLC Agreement”, and together with the COF, the “Documents”).

We have reviewed only the Documents and have made no other investigation or inquiry. Without limiting the generality of the foregoing, we have not examined or reviewed any document or instrument (other than the Documents), including, without limitation, any document or instrument referred to in the Documents. We have also relied, without additional investigation, upon the facts and representations set forth in the Documents.

In our examination of the Documents and in rendering the following opinion, in addition to the assumptions contained elsewhere in this letter, we have, with your consent, assumed without investigation (and we express no opinion regarding the following):

(a) that the Documents are valid and binding obligations of each party thereto, enforceable against such party in accordance with its respective terms;
(b) We have assumed that the provisions of the LLC Agreement relating to the powers of, and authorization and execution of documents and agreements by the Certificate Holder would be enforced by Delaware law as written.

Based solely upon our examination and consideration of the Documents, and in reliance thereon, and in reliance upon the factual statements and representations contained in the Documents, and our consideration of such matters of law as we have considered necessary or appropriate for the expression of the opinion contained herein, and subject to the exceptions, limitations, qualifications and assumptions expressed herein, we are of the opinion that, subject to the Certificate Holder's meeting all of the requirements of any applicable federal, state and local laws (including all rules and regulations promulgated thereunder), the Certificate Holder has the legal authority to construct and operate the Wheatridge Project without violating the Documents.

The opinion expressed herein is limited solely to the scope of our opinion is based solely on the Limited Liability Company Act of the State of Delaware.

Please do not hesitate to contact me if you have any questions regarding this matter.

Respectfully submitted,

Re: Wheatridge Wind Energy Facility Request for Transfer - Ownership List

Dear Ms. Esterson:

On June 14, 2017, Wheatridge Wind Energy, LLC submitted a Request for Transfer of Ownership of the Wheatridge Wind Energy Facility ("Request"), along with the required supporting documentation. As we noted in the cover letter, we were still in the process of preparing: (1) an updated property owners list (Attachment 1 to the Request) and (2) the legal opinion letter (Attachment M-1 to Revised Exhibit M).

Please find attached hereto the ownership list, which should be included with the Request as Attachment 1. This should be the last thing needed to process the Request.

Please let me know if you have questions or require additional information.

Very truly yours,

[Signature]

Sarah Stauffer Curtiss
