Ms. Quigley-

I am working for a client that is exploring development of a photovoltaic (PV) solar power generation project in the northern portion of unincorporated Lake County, Oregon. I have attached a preliminary map for your review which shows the general evaluation area under consideration.

The project proponent will conduct cultural resource file searches at the State Historic Preservation Office (SHPO) and field surveys within the proposed project area. I respectfully request your assistance in identifying appropriate tribes to consult with regarding tribal historic and cultural resources in the vicinity of this proposed project.

Thank you very much for your assistance.
