## RE: Completeness Determination of the Carty Generating Station, preliminary Request for Site Certificate Amendment 3

Dear Ms. Cope,

The Oregon Department of Energy (Department) completed its review of Portland General Electric's (certificate holder) responses to the Department's Requests for Additional Information (RAI) on preliminary Request for Amendment 3 (pRFA3) for the Carty Generating Station Site Certificate and considers the responses sufficient to support its evaluation of compliance with applicable requirements and Energy Facility Siting Council (EFSC) standards. On April 29, 2022, the certificate holder submitted a revised pRFA3 which incorporated responses to the Department's information requests issued on March 25, 2022. Based on review, the Department considers the revised pRFA3 to be complete. Please submit a clean Word and PDF version of the complete RFA3 to the Department by **Friday, June 10, 2022**; but note, the Department may request additional information if determined necessary during preparation of the DPO (OAR 345-027-0063(7)).

By rule (OAR 345-027-0365(1)(a)), the Department must issue its draft proposed order (DPO) on the RFA within 60 days of this letter, or August 6, 2022. However, the Department intends to issue the Type B Determination and the DPO on June 17, 2022. If you have any questions, please do not hesitate to contact me by phone at 971-701-4913 or by email.

Sincerely,

*Kathleen Sloan*
