AMENDMENT NUMBER FIVE
TO THE ENERGY FACILITY SITE CERTIFICATE
FOR THE NORTHWEST NATURAL GAS
MIST UNDERGROUND NATURAL GAS STORAGE FACILITY

This amendment number five to the Energy Facility Site Certificate for the Northwest Natural Gas
Mist Underground Natural Gas Storage Facility is issued and executed pursuant to the Order in
the Matter of the Application for Amendment by Northwest Natural Gas Co. for Amendment No.
5 to its site certificate for the Mist Underground Natural Gas Storage Facility between the State
of Oregon (State) acting by and through the Energy Facility Siting Council (EFSC or "the
Council") and Northwest Natural Gas Co (NNG), an Oregon corporation.

This amendment replaces the Site Certificate amendment process set forth in section VII of the
Site Certificate with the process set forth in Council rules in OAR Chapter 345 Division 27. The
amendment does not make all of the rules in Division 27 applicable to the facility, but only those
rules describing the Site Certificate Amendment process. The reasoning underlying this
amendment is set forth in the Council's Final Order for Amendment No 5 which was issued on
March 13, 1998 and which by this reference is incorporated herein.

Section VII is deleted in its entirety, and replaced with the following:

"Amendments to this site certificate shall be governed by duly adopted rules of the Energy
Facility Siting Council for the amendment of site certificates. As of the date of the
execution of this amendment, the Council rules applicable to the amendment of this Site
Certificate are OAR 345-027-0050, 0060, 0070 and 0080."

IN WITNESS WHEREOF, this Site Certificate has been executed by the State of Oregon, acting
by and through its Energy Facility Siting Council, and Northwest Natural Gas Co.
