Re: Yellow Rosebush Energy Center - Final Application for Site Certificate

Dear Ms. Sloan:

On behalf of Savion, LLC, Yellow Rosebush Energy Center, LLC (Applicant) submits this final Application for Site Certificate (fASC) for the Yellow Rosebush Energy Center (Facility). The Applicant seeks to develop the Facility, which consists of a solar energy generation and battery energy storage system and related or supporting facilities in Wasco and Sherman counties, Oregon.

This fASC submittal includes required materials per Oregon Administrative Rules (OAR) 345-021-0010(3)(h) and OAR 345-015-0200(1); confidential materials are submitted under separate cover, as well as two printed copies of the fASC.

Since the preliminary Application for Site Certificate (pASC) was submitted on August 30, 2024, new rules for ASC exhibits have been adopted. Per the request of the Oregon Department of Energy Department (Department), the Applicant includes the attached crosswalk between the previous and current OAR Division 21 and 22 requirements.

We look forward to working with you and the Department during this process.

If you have any questions, or require further information, please contact me at:
