

OGIC Disclaimer Policy

The Oregon Geographic Information Council officially adopts the following spatial data disclaimer, developed in collaboration with the Oregon Attorney General's Office in 2002, for inclusion on all printed (hardcopy) map products:

This product is for informational purposes and may not have been prepared for, or be suitable for legal, engineering, or surveying purposes. Users of this information should review or consult the primary data and information sources to ascertain the usability of the information.

Furthermore, it is the official policy of the Council:

- that the adopted disclaimer be used on all hard copy maps produced from geospatial data, and that the date and source of the data be included on the map;
- that spatial data producers be allowed to extend the adopted disclaimer with additional language further defining the limits of their liability;
- that a more robust disclaimer may be used in conjunction with any and all geospatial data published on the Internet, on a separate page preceding access to the data, with an accept/reject option for users; and
- that standardized metadata be included with any distribution of all geospatial data.
- that the disclaimer above may be used as a blanket disclaimer for documents containing a number of small maps.
