

The
OREGON
Geographic
Information
Council

is pleased to announce the

Fourth GIS Standards Forum

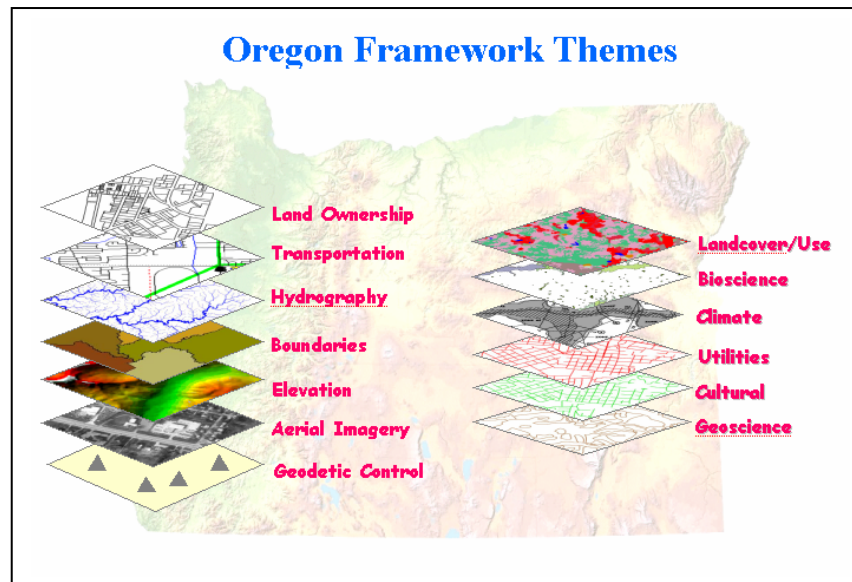

to be held on **June 23rd, 2004, at the Hollinshead Barn in Bend.** This event is the fourth in a series of Forums that are part of the ongoing process by the Oregon GIS community to develop and adopt statewide data content standards for geographic information. These semi-annual Forums are used to present work in progress and to gather vital input and endorsement from GIS professionals statewide. Future Forums will be held in other locations around the state.

www.bendparksandrec.org/hollinshead.asp

At the upcoming Forum, stakeholder groups for **Cadastral, Transportation, and Addressing**, will be asked to endorse proposed standards. The entire GIS community has had an opportunity to review and comment on the Cadastral and Transportation standards. The Addressing standard is expected to be released for public comment on May 17.

The Oregon Framework Implementation Team has been tasked by the Oregon Geographic Information Council with developing and presenting appropriate data content standards for geographic information. The Framework Implementation Team's mission includes facilitating the development of such standards for the entire GIS community and ensuring grass roots consensus.

The following data themes have been identified by the Framework Implementation Team, and approved by the Oregon Geographic Information Council for standardization and development. Hazards has recently been added to the list:

The Framework Implementation Team's activities are posted at the Geospatial Enterprise Office (GEO) website:
<http://www.gis.state.or.us>

Preliminary Forum Agenda

TIME	EVENT
9:00 AM	Introductions and Opening Remarks
9:30 AM	Concurrent Workshops Cadastral Data Model Orthoimagery Strategy Geodetic Control Standards
