Mission/Info Statement

Overview

The Oregon Educators Benefit Board (OEBB) was created with the signing of Senate Bill 426 (SB 426) on March 21, 2007.

OEBB provides a comprehensive selection of benefit plan options for most of Oregon's K-12 school districts, education service districts and community colleges, as well as several charter schools and local governments across the state. OEBB currently provides benefits for almost 150,000 individuals, including actively employed and retired members and their families.

OEBB Vision

OEBB will work collaboratively with participating entities, members, carriers and providers to offer value-added benefit plans that support improvement in members' health status, hold carriers and providers accountable for outcomes, and provide affordable benefits and services.

Key components of the OEBB program are:

- Support Oregon's health care system transformation efforts promoting better health, better care and lower costs.
- Support improvement in members' health status through a variety of measurable programs and services.
- Value-added plans that provide high-quality care and services at an affordable cost to members.
- Measurable goals and programs that hold carriers and providers accountable for health outcomes.
- Encourage members to take responsibility for their own health outcomes.
- Collaboration with participating entities, members, carriers and providers that ensures a synergistic approach to the design and delivery of benefit plans and services.
- Benefits follow all state and federal laws and support participating entities' ability to comply with healthcare-related laws and regulations.

Coordinated Care: The Oregon Difference

Through the Coordinated Care Model (CCM), Oregonians are experiencing improved, more integrated care. With a focus on primary care and prevention, health plans using the coordinated care model can better manage chronic conditions and keep people healthy and out of the emergency department.

Key elements of the coordinated care model include:

- Best practices to manage and coordinate care;
- Shared responsibility for health;
- Performance is measured;
- Paying for outcomes and health;
- Transparency and clear information;
- Maintain costs at a sustainable rate of growth.

OEBB works diligently to incorporate these elements into all OEBB medical plans, but they are particularly evident in the structure of the Moda Health Synergy and Summit plans as well as the healthcare delivery system inherent in the Kaiser Permanente plans.

ORS 243.866 outlines specific criteria that OEGB is to emphasize in considering whether to enter a contract for a benefit plan. The Board further defined those criteria to serve as a guide in carrying out its charge.

OPSC operates two statewide programs that offer a constructive space for healthcare facilities, providers, and patients to build a culture of safer care. The agency promotes shared learning and candid dialogue to reduce the risk of patient harm across Oregon's healthcare system. OPSC's programs are:

- Patient Safety Reporting Program (PSRP): PSRP collects and analyzes information from healthcare facilities about patient harm events. We share the lessons learned to support facilities in improving care and preventing future harm.
- Early Discussion and Resolution (EDR): EDR helps connect patients who experience harm and their healthcare provider so they can speak candidly about what occurred, work toward reconciliation, and contribute to safeguarding others from similar harm.
