Regional Solutions (RS) is working with local leaders to address immediate on the ground needs related to COVID-19.

RS Coordinators are convening Regional Economic Recovery Teams in partnership with the Employment Department and Business Oregon. These teams are working to understand regional impacts and needs as well as coordinate deployment of timely information and resources. This effort will ensure that the Governor's Coronavirus Economic Advisory Council hears from every part of the state.

Moving forward, The Exchange will be used to give updates on regional and state recovery efforts.
