

EXECUTIVE ORDER NO. 21-08

DETERMINATION OF A STATE OF DROUGHT EMERGENCY IN JACKSON COUNTY DUE TO UNUSUALLY LOW SNOW PACK, LACK OF PRECIPITATION, LOW STREAMFLOW, AND LOW RESERVOIR LEVELS

At the request of Jackson County (by Order No. 45-21, dated March 31, 2021) and based on the recommendations of the Drought Readiness Council and the Water Supply Availability Committee, and pursuant to ORS 536.740, I find the lack of precipitation, low snow pack, low streamflow, and low reservoir levels have caused or will cause natural and economic disaster conditions in this county.

Forecasted water supply conditions are not expected to improve, and drought is likely to have significant economic impacts on the farm, vineyard, ranch, forest, recreation, drinking water, and natural resources sectors, as well as impacts on fish and wildlife and other natural resources which are dependent on adequate precipitation, stored water, and streamflow in these areas. Extreme conditions are expected to affect local growers, and increased the potential for fire, a loss of economic stability, shortened growing season, and decreased water supplies.

Conditions continue to be monitored by the state's natural resource and public safety agencies, including the Oregon Water Resources Department, the Oregon Office of Emergency Management, the Oregon Office of the State Fire Marshal and the Oregon Department of Forestry's Fire Protection Division.

Preparation and resiliency to drought are vital to the health and safety of persons, property, and the economic security of the citizens and businesses. I therefore declare that a severe, continuing drought emergency exists and is likely to continue to exist in Jackson County.

NOW, THEREFORE, IT IS HEREBY DIRECTED AND ORDERED:

- I. The Oregon Department of Agriculture is directed to coordinate and provide assistance in seeking federal resources to mitigate drought conditions and to assist in agricultural recovery in Jackson County.
- II. The Oregon Water Resources Department and the Water Resources Commission are directed to coordinate and provide assistance to water users in Jackson County as the Department and Commission determine is necessary and appropriate in accordance with ORS 536.700 to 536.780.
- III. The Oregon Water Resources Department is directed to seek information from the Oregon Department of Fish and Wildlife to help understand the impacts of water availability on Oregon's fish and wildlife, as necessary and appropriate in accordance with ORS 536.700 to 536.780.

EXECUTIVE ORDER NO. 21-08
PAGE TWO

- IV. The Office of Emergency Management is directed to coordinate and assist as needed with assessment and mitigation activities to address current and projected conditions in Jackson County.
- V. All other state agencies are directed to coordinate with the above agencies and to provide appropriate state resources as needed to assist affected political subdivisions and water users in Jackson County.
- VI. This Executive Order expires on December 31, 2021.

Done at Salem, Oregon, this 13th day of April, 2021.
