

Want a healthier future & environment for your community? Join us in Astoria!

We're developing a new Environmental Justice (EJ) Mapping Tool, and we want to hear from you to make sure it reflects your priorities and experiences with health and the environment.

What is the purpose of the EJ Mapping Tool?

Oregon is identifying risk areas for communities overly burdened by pollution, climate change, and other environmental concerns that affect health. This tool will help state agencies better serve communities across the state.

Why should you attend?

- Share your experiences related to environment, climate, and health
- Help make sure this tool reflects your priorities and communities' lived experiences
- Connect with others who care about environmental health and climate issues

Who should attend?

Community members, local organizations, fishers, seafood processors, boaters, youth, health workers, small business owners, and anyone who wants a healthier future for the North coast.

April 16, 2025

5:30–7:30 PM

Register for location details

- Paid for your time and efforts
- Dinner and childcare provided
- Spanish interpretation available

Hosted by the Oregon Environmental Justice Council
