Agency POP selection	<i>Meeting starts at 10:03am. Valerie provides overview of DOC Policy Option Packages and DOC modernization business process.</i> Tristen: Does this mean DOC cut this money from somewhere else? Paul: Think this is IT exception. For as long as I can remember, DOC has asked to replace DOC 400. I have to think this is dead on arrival, just curious if you have a different take. Is this something new and different then what they've asked for in the past? Valerie: Unable to say if its dead on arrival but do see an issue with not being able to have updates. Andre: Theres exceptions to revenue neutral requirement. Tristen: Initial thoughts are it doesn't seem feasible when there's serious budget cut session. Doesn't think I don't think we should hear about it but always interested to learn more on operations of DOC but just seems an enormous request for budget deficit. Paul: Would love to hear more about what they really mean. Valerie: Would be best to have someone from their IT to better speak to that and we can ask Director Resse to talk to that too. <i>Meeting concludes at 10:33am.</i>

Exceptions to the revenue-neutral requirement:

Capital projects that must go through the Capital Projects Advisory Board process.

IT projects as they relate to SB 1090 (2025) review, especially projects already in process.

Legislative or Ballot Measure mandates.
