

Docket Item:

2016-17 Key Commission Discussion Items.

Summary:

During the HECC's May meeting, commissioners shared issues and items that they want to ensure receive attention and deliberation from the Commission during 2016-17.

The May 2016 Education Commission of the States (ECS) report by Aims McGuinness, *State Policy Leadership for the Future: History of state coordination and governance and alternatives for the future*, may be a useful jumping-off point for conversations the Commission will commence at its August meeting on these topics.

Below is a summarized list of topics that were raised by commissioners in May, viewed through the framework of the McGuinness report:

1. In the Oregon context, what do we believe to be an appropriate role for a state coordinating commission and agency?
2. What do we do with issues that arise at places where our authority leaves off, but the public believes we have responsibility?
3. How do we successfully move from strategic planning to strategic implementation in areas such as the following?
 - University evaluations
 - Competition
 - Capital planning
 - Equity
 - Family and community engagement
