

NOTE: These are strictly preliminary data

Please take into consideration the following:

- These are preliminary data.
- These are data that four-year public institutions currently report in SCARF (Student Centralized Administrative Reporting File).
- These are data reflecting what has historically been collected. Some categories (e.g. pre-admitted credits, other advanced credit, non-collegiate instruction, credit from unaccredited schools, etc.) may not be clearly defined and could have different definitions at different universities.

Note: These advanced credit categories are those that have been historically collected. Some categories (e.g. pre-admitted credit, other advanced credit, non-collegiate instruction, credit from unaccredited schools, etc.) may not be clearly defined and could have different definitions at different universities. In addition, these categories may not be entirely sufficient for the analysis of CPL activity at the public universities.
