

Thank you so much for rejecting the very high percentage increase in tuition at the university of Oregon this year.

Please stand your ground and reject the proposal again.

Please ask them to go to donors to contribute maintenance and upkeep funds for the wonderful buildings they have donated. These wonderful buildings become drains on the school budget when only the building is donated, but the institution is saddled with ongoing expenditures for the lifetime of the building.

Thanks again,

CW Murchison

Eugene resident who wants more affordable tuition for University students.
