

**Docket Item:**

SB 54: University Evaluation Timeline Update

**Summary:**

SB 54 is under consideration in the current 2017 legislative session. HECC requests moving university evaluations to a two-year cycle, and permission for the HECC to adopt rules necessary to administer changes. The change will improve the effective use of staff time for data collection, analysis, report writing and the substantive quality of the evaluation reports. The new timeline will also enhance the return on investment of current staff time and resources at HECC and universities. The change, if approved, will be effective beginning 2017.
