

**Docket Item:**

Proposed HECC Strategic Initiatives Tracker

**Summary:**

On December 17, 2017, the Commission approved the HECC Strategic Framework (2017-2021), which describes the Commission's vision, mission, values, and four areas for strategic action ("reporting," "funding," "pathways," and "outreach."). When the Commission reviewed the Framework on January 8, 2018, several Commissioners noted that it would be helpful to receive standard written updates on progress within each of the Commission's strategic action areas.

The attached document represents the first draft of a Strategic Initiative Tracker. The Executive Director and staff would update the tracker and present it at every Commission meeting in order to quickly apprise Commissioners on progress on key strategic initiatives.

It should be noted that in its current, draft form, the tracker focuses on key initiatives underway within each of the Commission's strategic action areas. The tracker focuses on newer, strategic initiatives for which the Commission itself is expected to play a crucial decision-making and leadership role. It does not include information on ongoing staff-led programs and other activities that are more "routine," typically due to their longer history and their status as enshrined within state or federal law/budget.

**Docket Material:**

Draft initiative tracker

**Staff Recommendation:**

This is an informational and discussion item only. Commissioners are encouraged to provide feedback on how the tracker's usefulness can be improved.
