

Docket Item: 9.1 HECC Key Performance Measures Report

Summary:

All executive branch agencies have Legislatively approved key performance measures (KPMs) that relate to the mission of the agency. HECC's Office of Research and Data tracks these measures and provides annual updates to the Commission, the Legislative Fiscal Office, and the Department of Administrative Services. Today we present a summary of the 2022 report.

The HECC has 16 KPMs, 14 of which provide a dashboard to track progress toward the State's educational attainment goal (40-40-20), in the factors that lead to that goal, and in the ability to achieve the goal equitably. The remaining two measures are required of all agencies to measure the Commission's use of best board/commission practices (annually) and agency customer service (bi-annually).
