

# Displaced Worker Virtual Sessions

## on Unemployment Insurance, Health Insurance, Human Services and other Community Resources

The Beachie Creek/Santiam Fire has affected many employed with Freres Lumber. These Displaced Worker Virtual Sessions are designed for affected Freres Lumber workers but any local workers affected by the fire are welcome to attend. Rapid Response teams are available across the state to provide virtual information sessions when a temporary layoff has occurred. Our goal is to help workers temporarily laid off to navigate unemployment insurance, health care options, and community services while waiting to go back to work.

### Displaced Worker Virtual Session One

on Unemployment Insurance, Health Insurance & Community Resource
