*Note: The institution is responsible for **assessing the student** and creating learning objectives relative to the placement. The supervisor needs to make clear expectations of the onsite placement and how the student's work will be assessed.*

**Describe the Supervision of placement program:**

*Note: The institution is responsible for supervising the student during the placement. An on the ground supervisor is not required for authorization.*

**Describe the Assessment of placement program:**

*Note: The institution is responsible for **assessing the student** and creating learning objectives relative to the placement. The supervisor needs to make clear expectations of the onsite placement and how the student's work will be assessed.*

**[5] Additional Placement – Description of Placement Program**

**PLEASE NOTE: Requiring a practicum, clinical, internship, externship, mentoring, field placement or other instructional experience in Oregon, offered for academic credit toward the degree program, constitutes a physical presence in the State of Oregon requiring authorization to operate. The placement does not need to be required for graduation/completion of the degree program.**

For each onsite placement program, the institution needs to submit the supervision, coordination and assessment plan.

For institutions offering *programs requiring Onsite Placement*, please submit these additional documents for EACH onsite placement requirement:

<b>Name of placement program:</b> -----	
<b>Supervisor of placement program:</b> -----	
<b>Contact E-Mail:</b>	<b>Phone:</b>

**Description of placement program:**

  
  
  
  
  
  
  
  
  
  

**Describe the Coordination of placement program:**

*Note: The student can find the placement location, but if the student is unable to find a placement location, the institution needs to provide assistance.*

**Describe the Supervision of placement program:**

*Note: The institution is responsible for supervising the student during the placement. An on the ground supervisor is not required for authorization.*

**Describe the Assessment of placement program:**

*Note: The institution is responsible for **assessing the student** and creating learning objectives relative to the placement. The supervisor needs to make clear expectations of the onsite placement and how the student's work will be assessed.*
