Transfer Council

4.0 Psychology AST Major Transfer Map Curriculum Articulation Policy

Summary:

The Psychology Major Transfer Map subcommittee brings the Curriculum Articulation Policy for approval to the Transfer Council.

In response to the Transfer Council [work product memo](#) sent to the Psychology subcommittee, asking them to explore additional major coursework for the MTM, on May 22, 2024, the MTM-CAP includes:

- Three major courses: PSY 201Z, PSY 202Z, and Lifespan Development

The subcommittee prepared the short development narrative on the next page for the Transfer Council.

Staff Recommendation:

Approve the AST Major Transfer Map Curriculum Articulation Policy for Psychology as recommended by the Subcommittee on May 23, 2025.

Recommended Motion:

Move to approve the AST Major Transfer Map Curriculum Articulation Policy for Psychology as recommended by the Subcommittee on May 23, 2025.

From the Faculty Subcommittee:

The Psychology Major Transfer (MTM) map is designed to prepare Oregon transfer students to meet key foundational outcomes necessary to pursue a BA or BS major in Psychology.

The MTM is flexible to meet the needs of Psychology majors preparing for careers as varied as a mental health specialist to marketing professional, or for graduate programs in fields such as medicine, research psychology, industrial/organizational psychology, human computer/robot interaction, neuroscience, clinical psychology, counseling psychology, education, and social work.

While psychology programs are designed to be flexible enough to prepare students for a wide variety of careers and job skills, some elements are essential to all Psychology 2-year and 4-year degrees. First, psychology is a STEM discipline. Second, psychology is one of seven hub sciences, defined as sciences that are most influential to other scientific fields based on the frequency with which other fields rely on psychology publications for their own discoveries. Third, the essential themes of all psychology degrees, at the associate and bachelor's level, as set forth by the [American Psychological Association](#), are:

1. Psychological science relies on empirical evidence and adapts as new data develop.
2. Psychological science explains general principles that govern behavior while recognizing individual differences.
3. Psychological, biological, social, and cultural factors influence behavior and mental processes.
4. Psychological science values diversity, promotes equity, and fosters inclusion in pursuit of a more just society.
5. Our perceptions and biases filter our experiences of the world through an imperfect personal lens.
6. Applying psychological principles can change our lives, organizations, and communities in positive ways.
7. Ethical principles guide psychological science research and practice.

The Psychology MTM Features:

Core Common Course Numbering (CCN) courses

The MTM includes 6 Common Course Numbering (CCN) courses to facilitate transfer. The core PSY 201Z and PSY202Z, as well as the general education courses COMM 111Z, WR 121Z and WR122Z, and STAT 243Z, meet essential [foundational outcomes](#) for Psychology majors nationally and MTM learning outcomes specifically. The MTM also includes taking “any [2] biology w/lab course[s]”, which covers a number of BIO courses that are now or may one day have a CCN. Altogether, Psychology MTM transfer students will transfer at least 24 credits of CCN courses.

Additional Major-Specific Course

Transfer council required the MTM group to “identify an appropriate additional psychology course (or courses) for inclusion in the MTM-CAP.”

Through a great deal of effort and collaboration among the MTM subcommittee members, we identified *one* additional lower-division PSY course – Human Lifespan Development - that is

1. taught at all Oregon Community Colleges, and
2. will count toward a BS/BA Psychology degree (with changes at some OPU), and
3. would not prevent a student from choosing to take advanced coursework in the same or similar area at an OPU, and
4. would not require a student to “retake” any course at an OPU to earn a BA/BS Psychology degree.

This gives students maximum choice while ensuring progress toward a BA/BS Psychology degree.

Although every CC offers some version of a Lifespan Human Development course that fits this description, there is considerable variability in the scope and audience among these courses. Nevertheless, every OPU was able to find a *different* and often *creative way* to meet these criteria.

No Variance Across Institutions

All Psychology MTM students will be able to complete the same Psychology MTM, increasing predictability and consistency for community college students, especially those who are certain they want to pursue a Psychology BA/BS degree and prioritize maximum flexibility when choosing an OPU for transfer.

A statewide policy that identifies the community college courses needed to transfer to any participating Oregon public university with the same status as a first-time freshman seeking a Bachelor of Science in Psychology.

Oregon Institute of Technology

180 total credits for:
Bachelor of Science in Psychology

Introduction: A Major Transfer Map Curriculum and Articulation Policy (MTM CAP) is for students transferring from a participating Oregon community college to any participating Oregon university who know which major/bachelor's degree program they want to pursue. The MTM CAPs identify the optimal and specific set of lower division courses students must take to transfer efficiently into the major at the university. The successful completion of the major transfer map allows students to receive the number of academic credits referenced in this MTM CAP, and comparable standing to the status of students with the same number of academic credits in the major course of study who began their postsecondary studies at the public university. MTM CAPs must include at least 30-credits of general education defined by the Core Transfer Map (CTM). MTM CAPs may choose to specify relevant or required General Education courses as part of the 30-credit CTM component of the MTM CAP. Receiving institutions will not require students to retake a course if the minimum grade requirements, specified in this agreement, have been met.

The statewide MTM CAPs will use one of the following formats. The selected format will be specified in each approved MTM program:

- an Associate of Science Transfer (AST) in Psychology

Students must have earned a cumulative grade point average of 2.0 and meet the residency requirements at the community college awarding the MTM.

When students complete an MTM, the general education courses in the "Core Transfer Map" portion of the MTM, for which minimum required grades have been earned, are guaranteed to transfer into general education, degree, or major requirements for a bachelor's degree at any Oregon public university (ORS 350.404).

Students who want to transfer prior to completing the MTM should talk with their community college advisor and an advisor at their target university prior to transfer about how their courses will count towards general education requirements and degree/major requirements. If the MTM is not awarded advisors can guide students to determine if they are eligible for a CTM.

The guarantees and limitations in the next two sections describe the requirements all participating institutions.

Part 1: Guarantees

Students who complete all the requirements specified within an MTM CAP (i.e. an MTM CAP associate's degrees or an MTM non-degree package when optimal transfer requires fewer than 90 credits) as defined, who have earned the minimum required grades and a cumulative 2.0 GPA or higher, meet residency requirements, and who are admitted to the receiving institution's corresponding major/degree program are guaranteed the following:

1. Time until completion of the major at the public university that is comparable to time until the completion of students with the same number of academic credits in the major course of study who began at the public university (when the MTM is equal to at least 90 credits this would equate to receiving "junior status in the major course of study at the public university").
2. Catalog rights follow the MTM CAP agreement. Eligibility to graduate following the bachelor's degree requirements in effect at the university during the academic year the student first enrolled in the community college that awarded the Associate of Arts Transfer degree in [MAJOR] or Associate of Science Transfer degree in [MAJOR]. If the student does not complete the MTM

CAP bachelor's degree within 7 years of the first enrollment at the community college awarding the MTM CAP, they should meet with an advisor to determine which catalog to use.

3. If a student transfers before completing the MTM CAP, all courses will still transfer but may not apply in the same way as they would if the MTM CAP was completed. If the student has completed a CTM, the guarantees inherent in the CTM apply. All courses in the incomplete MTM CAP or incomplete CTM will transfer individually.
4. The ability to file a student complaint.
 - a. Students encourage to first follow their home institution's internal complaint process (e.g., talk to their academic advisor, academic unit, Registrar or Provost)
 - b. Students may send complaints in writing to the Transfer Council. transfercouncil@hecc.oregon.gov.
 - c. No later than 2027, the Commission will approve Oregon Administrative Rules that outline a comprehensive student complaint process that will center the Transfer Council as the primary focal point for interinstitutional transfer student complaints.
 - d. The HECC only has authority to handle student complaints if they are related to discrimination or retaliation.
5. Students who successfully complete the MTM CAP at a community college will have the MTM CAP notated on their transcript. If the MTM CAP takes the form of an associate degree, it will be reflected in the standard degree posting format used by the community college and specifically notated on page two of this document. If the MTM CAP is not an associate degree, but rather an optimal transfer point with fewer than 90 credits, it will be posted as a notation on the community college transcript and specifically notated on page two of this document.

Part 2: Limitations

1. Completion of the prescribed curriculum in the MTM CAP does not guarantee admission to a participating receiving institution. Students must meet all admission and application requirements at the receiving institution in place at the time of admission, including the submission of all required documentation by stated deadlines.
2. Minimum grades required for general transfer and for application to major requirements and pre-requisites may vary by each Oregon public university and by each degree/major. Each MTM CAP agreement will specifically list the minimum grade requirements that will guarantee transfer including minimum required grades for major courses and Pass/No Pass limitations. All schools accept a grade of a "C -" or better in all general education courses. Students should contact the admissions counselor or intake advisor at the university they intend to transfer to for more information.
3. Completion of an MTM CAP and admission to a receiving institution does not guarantee enrollment in a specific degree program. Some programs at receiving institutions have controlled and/or competitive entry due either to space limitations or academic requirements.
4. The credit and course transfer guarantees described in the specific MTM CAP apply only to the specific degree programs covered by this policy. Therefore, if a student changes to a new major some courses may not apply the same way towards the new major as they would for the original major. When students change majors, the previous MTM CAP major guarantees may no longer apply and receiving institutions will evaluate applicability of transfer on a course-by- course basis.
5. AP (Advanced Placement) and IB (International Baccalaureate) credit:
 - General Education Courses in the MTM CAP:
AP and IB articulated credits used to meet the general education components of the Major Transfer Map Curriculum Articulation Policy will transfer and are guaranteed to fulfill

general education requirements at the receiving institution if the articulated credits are listed on the Advanced Placement and International Baccalaureate Statewide *Course Credit Policy* found on the HECC website.

- AP (Advanced Placement) and IB (International Baccalaureate) in the MTM CAP:

Using the current *AP and IB Statewide Course Credit Policy* as a reference, the Major Transfer Map Curriculum Articulation Policy faculty subcommittee will assess how AP/IB exam scores apply to the MTM CAP (range of credits and course articulations). In particular, the MTM CAP faculty subcommittee will identify whether the credit range and course articulation of AP/IB exam scores differ among the 17 community colleges and 7 public universities in ways that create transfer misalignment for students earning the MTM.

The workgroup will refer all areas of misalignment to the AP/IB Statewide Policy Workgroup, which will coordinate with the higher education institutions' appropriate representatives (including faculty and academic leadership) to resolve the areas of misalignment by establishing common range of credits and defined articulations across the 17/7 so that AP/IB exam credit awarded at any community college will transfer to all public universities and apply as intended in the MTM CAP.

If 17/7 alignment in range of credits and course articulation for AP/IB exam scores is not possible, the MTM faculty subcommittee will determine whether the differences constitute acceptable and warranted variance within the MTM CAP. If so, the subcommittee will communicate about the variance to the Transfer Council upon submission of the MTM CAP.

All participating institutions must adhere to the MTM CAP when accepting credits.

6. Please note that each Oregon public university has differing policies on institutionally administered exams (sometimes called Challenge Exams) and students should contact the admissions counselor or intake advisor at the university students intend to transfer to for more information.
7. Students should consult with advisors at their community college and receiving university if they have additional questions.

Part 3: Required Participation

Institutions listed on page two are required to participate in the MTM CAP as governed by the Oregon Administrative Rules (OAR) noted below:

- [715-025-0015](#): Institutional Participation in Major Transfer Map Curriculum Articulation Policy
- [715-025-0035](#): Commission Consideration and Approval of Major Transfer Map Curriculum Articulation Policies
- [715-025-0040](#): Effect of Major Transfer Map Curriculum Articulation Policy Adoption on Institutions

Part 4: Institutional Obligations

First, Oregon public universities and community colleges will follow [OAR 715-025-0055](#) to modify a MTM CAP.

Second, participating institutions will continue to work toward maximizing course alignment as much as possible with the goal of awarding direct equivalencies for all MTM courses, even when a transferring student has not completed the MTM.

Major Transfer Map: Statewide Articulation Agreement Participants to the Agreement

On [DATE] and by a [insert vote] the Transfer Council recommends this MTM CAP to the Commission for approval.

On [DATE] and by a [insert vote] the Commission approves this MTM CAP. MTM CAP is effective beginning [DATE].

(ex-officio)

This Major Transfer Map Curriculum Articulation Policy (MTM CAP) outlines specific course requirements for students at any participating Oregon community college who plan to transfer to a participating four-year public university and earn a Bachelor of Science in Psychology. A completed Core Transfer Map will transfer to any of the 7 Oregon Public Universities (OPU). A complete MTM CAP will give students all guarantees listed in this MTM CAP at the participating OPUs listed in this agreement. The MTM CAP is intended for students who know they want to transfer and earn a Bachelor of Science in Psychology, but who are unsure of their intended transfer destination. Students should work with an advisor to ensure they fulfill the requirements of this major transfer map. Students who are certain of both their major and their intended transfer destination should consult an advisor for information on an existing specific articulation agreement or degree map that will prescribe their course requirements.

Note that in order for a student to successfully transfer to an Oregon public university, students must at a minimum:

1. Earn a grade of a “C-” or better in courses in the major
2. Take courses in the major for a grade— Oregon public universities do not accept “pass/no pass”
3. Earn a cumulative grade point average of 2.0

Minimum grades required for general transfer and for application to major requirements and prerequisites may vary by each Oregon public university and by each degree/major. Each MTM CAP agreement will specifically list the minimum grade requirements that will guarantee transfer including minimum required grades for major courses and Pass/No Pass limitations. All schools accept a grade of a “C -” or better in all general education courses. Students should contact the admissions counselor or intake advisor at the university they intend to transfer to for more information.

Students are strongly encouraged to seek advising before their first term of college and after they have completed the 27-35 credits of the Core Transfer Map (CTM) Requirements. Students should also be aware that if they want to complete an MTM CAP in two years, they should take an average of 45 credits per year, or approximately 15 credits per quarter. Finally, to earn an associate degree, students will need to successfully complete at least 90 credits.

CORE TRANSFER REQUIREMENTS		
<i>See an advisor for recommended courses before your first term</i>		
<i>Writing</i>		
1 course	WR121Z	4
<i>Arts & Letters</i>		
1 st course:	Select from AAOT course list	3-4
2 nd course:	Select from AAOT course list	3-4
<i>Social Sciences</i>		
1 st course	Select from AAOT course list	3-4

2 nd course	Select from AAOT course list	3-4
<i>Natural Sciences</i>		
1 st course	Any biology w/lab course	4-5
2 nd course	Any biology w/lab course	4-5
<i>Mathematics</i>		
1 course	STAT 243Z	4
<i>At least 1 Core Transfer Requirement course must also satisfy Cultural Literacy outcomes for AAOT</i>		
Core Transfer Requirement Total		30-35
ADDITIONAL GENERAL EDUCATION COURSES

<i>1st course</i>	PSY 201Z	4
<i>2nd course</i>	PSY 202Z	4
<i>3rd course</i>	Lifespan Development (must have a PSY prefix)	3-4
Psychology Total		11-12
MTM Total		50-55
ADDITIONAL COURSES TO REACH 90 CREDITS		
<i>See an advisor for recommended courses</i>		

Minimum letter grade and/or GPA requirements for MAJOR Coursework <i>If the cell is blank, you must achieve a minimum letter grade of C- in major coursework</i>	
University of Oregon	C
Portland State University	
Oregon State University	
Oregon Institute of Technology	C
Southern Oregon University	C

Eastern Oregon University	2.0 GPA requirement for major coursework
Western Oregon University	

Advanced Placement or International Baccalaureate Exams

*The following exams can be used in place of **major** coursework in the MTM only if they are aligned across all participating institutions (see Curriculum Articulation Policy)*

There are no AP or IB exams that can be used in place of major coursework at this time.

Program Learning Outcomes: Associate of Science Transfer Degree in Psychology

Upon completion of the AST in Psychology, students will be able to:

1. Describe psychology's major subfields
2. Express ideas that accurately reflect basic psychological concepts and principles

Psychology Major Transfer Map Post-Transfer Crosswalk

Core Transfer Map	Credits	EOU	OIT	OSU	PSU	SOU	UO	WOU
Writing – WR 121Z	4	WR 121Z	WR 121Z	Writing Foundations (1 of 1 course)	1 of 2 University Writing Courses	1 of 3 Purposeful Learning courses (3-4 credits)	WR121Z (4 credits)	1 of 2 Foundations: Writing courses (4 credits)
Arts & Letters – 2 courses	6-8	2 Aesthetics and Humanities courses	2 Humanities courses	Arts & Humanities (2 of 2 courses)	min. 10 credits of Arts & Letters/Social Science courses ***Additional credits apply to FRINQ	1 Creativity and Expression course (3-4 credits) 1 Creativity & Innovation course (3-4 credits) 1 Inquiry and Analysis course (3-4 credits) 1 Numerical Literacy course (3-4 credits) 1 Equity, Diversity & Inclusion (3-4 credits)	2 Arts and Letters courses (6-8 credits)	2 of 2 Exploring Knowledge: Literary and Aesthetic Perspectives courses (6-8 credits)
Social Science – 2 courses	6-8	2 Social Science courses	2 Social Science courses	Social Science (1 of 1 course) Communication, Media, & Society (1 of 1 course)				2 of 2 Exploring Knowledge: Social, Historic, and Civic Perspectives courses (6-8 credits)
Natural Science – 2 biology with labs	8-10	2 Natural & Info Science courses	2 Science/Mathematics courses; lab science requirement met	Scientific Inquiry and Analysis (Natural Science w/lab; 2 of 2 courses)	8-10 (of 10 credit min.) science requirement (6 credits must be w/lab)		2 Social Science courses (6-8 credits)	2 of 2 Exploring Knowledge: Scientific Perspectives courses (8-10 credits)
Math – STAT 243Z	4	1 college level mathematical course	1 Science/Mathematics course; mathematics requirement met	Quantitative Literacy and Analysis (1 of 1 course)	1 Math or Statistics course		STATS 243Z - 4-credits (Counts toward 1 term of requirement for 1 year college level Math)	1 of 1 Foundations: Math course (4 credits)
One course must also satisfy: AAOT Cultural Literacy Requirement			Meets Intercultural Studies recommendation			Met with Equity, Diversity & Inclusion capacity	4-credit course will count as 4 of 8 credits of Cultural Literacy requirement. PSY majors should consider taking GP courses for cultural literacy requirement (since multiple UO PSY courses meet US-DIA requirement)	
Courses must total minimum of 30 credits, can be filled by an elective credit if needed		Additional credits taken to reach 30 in the Foundational Curriculum will be applied to the general education category associated with them.	Additional courses taken to reach 30 credit minimum will be applied to the appropriate General Education category.	Additional credits taken to reach 30 may be applied to the general education category based on the Core Ed Transfer course articulation policy	Additional credits(as many as 9) taken to reach 30 credit total will be applied to the 30 credit minimum needed to waive the 15 credit - first year University Studies requirement - First Year Inquiry (FRINQ). See remaining BA/BS and University General Education Requirement section for recommendations.	Core Transfer Maps will be taken as a block only. The courses and categories in the Core Transfer Map will not be singularly articulated to SOU's Lower Division GE Capacity Model.	Additional credits taken to reach 30 will be applied to the appropriate General Education requirement. Psych students should consider taking courses that best align with their goals and may facilitate second major/minor that enhances their career interests	Additional credits taken to reach 30 will be applied to the appropriate General Education requirement. 2 of 2 First Year Seminars (8 credits) covered by CTM but not via direct articulation.
