Important Notice: Transition Fair for ITT Students

A Transition Fair for former ITT students will be held at Mount Hood Community College on the afternoon of Friday September 16th. Students will have the opportunity to meet with representatives of a number of Oregon postsecondary institutions to discuss opportunities for continuing their education.

Transition Fair Information

Date: Friday September 16

Time: 1 pm – 5 pm

Location: Mount Hood Community College, Learning Success Center (Mezzanine level of the Library Room 3000) 26000 SE Stark, Gresham, OR 97030

<http://www.mhcc.edu/DirectionsMaps/>

<http://www.mhcc.edu/AcademicCenterMap/>

Participating Schools: Chemeketa Community College, Clackamas Community College, Linn-Benton Community College, Mount Hood Community College, Oregon Institute of Technology, Portland Community College.

Questions about Event: call Anna Usselman (503) 947-5716 or Rebecca Fuller, (503) 947-5751 or email: info.PPS@state.or.us

Below you will find additional information regarding transition opportunities provided by individual colleges:

Chemeketa Community College: Chemeketa Community College has invited students previously enrolled in the following programs to contact them directly:

- Associate of Applied Science in Drafting and Design Technology
- Associate of Applied Science in Electrical Engineering Technology
- Associate of Applied Science in Software Development
- Associate of Applied Science in Network Systems Administration
- Associate of Applied Science in Information and Cybersecurity

Students interested in discussing the possibility of continuing their education at Chemeketa should contact:

Nol Cobb, Coordinator, Career and Technical Programs
Chemeketa Community College
nol.cobb@chemeketa.edu
(503) 589-7743

Mount Hood Community College: students may email ITTTransitions@mhcc.edu to discuss opportunities for program completion available at Mount Hood Community College.

Portland Community College (information for nursing students) PCC is exploring options to support ITT Nursing students and to enable them to complete their program. There are a number of hurdles to be addressed and logistical items that would need to fall into place. We will have more information to share by Friday September 16th.

**OREGON STATE BOARD OF NURSING
INFORMATION SHEET FOR NURSING STUDENTS FROM BRECKINRIDGE AT ITT
September 9, 2016**

All appropriate Oregon state agencies are actively involved in developing pathways and remedies for students from the Breckinridge at ITT program to continue progression toward a nursing degree. The urgency of the situation is understood but planning for a successful outcome may take a few weeks. The goal is to establish pathways that allow students to finish the degree they started.

In the interim, here are some facts:

1. Regarding the Exit HESI Exam Requirement

ITT-Tech and Breckinridge School of Nursing have made a formal change to the exit HESI testing policy. This change allows for a student who has **completed and passed their final quarter courses** to be issued a final transcript showing the degree awarded even if the HESI exam was not taken or not passed. This individual is a graduate and can apply for the nursing license by examination. For those seeking licensure in Oregon, the application form is available through this link:

<http://www.oregon.gov/OSBN/pdfs/form/LIC-103-103Acombined.pdf>

Completing the license examination application is your first step and will lead you along to other required steps.

2. Seeking the CNA1 and/or CNA2 Certificate

Students who have **passed the following courses may apply for CNA1:**

NU 100, NU 131, NU 1326 (was NU 110), and NU 1422 (was NU 120)

Request that your transcript be forwarded to the Oregon State Board of Nursing.

The application form is available through this link for those seeking the certification as CNA1:

<http://www.oregon.gov/OSBN/pdfs/form/LIC-705.pdf>

Students who have **passed the following courses may apply for CNA2:**

NU 100, NU 131, NU 1326 (was NU 1110), NU 1422 (was NU 120), and NU 230

Request that your transcript be forwarded to the Oregon State Board of Nursing.

The application is available through this link for those seeking the certification as CNA2:

<http://www.oregon.gov/OSBN/pdfs/form/LIC-705.pdf>

Note: If you aren't already a CNA1, you must apply for CNA1 and CNA2 at the same time to obtain the CNA2.

3. Seeking Transfer into Another Nursing Program

Until formal plans are developed specific to the students from the Breckinridge at ITT program and disseminated to college admissions staff, any student who seeks information from colleges in Oregon will likely hear the same information provided to any student who is asking about transferring to that college. This information usually includes limitations on the ability to accept transfer credits, the limits on numbers of credits that may be accepted, competitive admission processes for nursing programs, etc. It is understandable that students want to be proactive in finding a way to continue their education. However, please be aware that information available on admission and transfer credits as of today is not likely to address your unique situation.
