

FAFSA/ORSAA Completion Rates

October 2019

Combined 2019-20 FAFSA/ORSAA Completion Rates Oregon Public High Schools: Class of 2019

This report contains the combined 2019-20 FAFSA/ORSAA completion rates as of June 1, 2019 for the senior class at most Oregon public high schools. The Higher Education Coordinating Commission (HECC) will release subsequent reports that show completion rates for future FAFSA/ORSAA application years. The purpose of these reports is to inform Oregon public high schools of their completion rates over time, allowing them to track progress and measure success. When students complete the FAFSA or ORSAA, they gain access to critical financial aid which helps them to achieve their postsecondary goals.

Completion Rate Calculation

The completion rate for each high school is a quotient of the total count of completed FAFSAs and ORSAAs and the number of seniors enrolled. The statewide completion rate is a quotient of the total count of completed FAFSAs and ORSAAs and the number of seniors enrolled, among the Oregon public high schools where sufficient data were available.

Statewide
FAFSA/ORSAA
Completion Rate:
59%

The number of seniors by public high school is taken from the Oregon Department of Education (ODE) Fall Membership Report for 2018-19¹. This report includes the number of seniors enrolled at each school as of the first school day of October 2018.

Completion rates rely on certain assumptions to determine who is a high school senior: applicants no older than 19 as of June 1, 2019, who will have received their high school diploma and who will be considered college freshmen by the start of the 2019-20 school year². These assumptions are intended to arrive at the most accurate and relevant completion rate.

¹ <https://www.oregon.gov/ode/reports-and-data/students/Pages/Student-Enrollment-Reports.aspx>

² Student characteristics as reported by student on the FAFSA or ORSAA.

The completion rates only include FAFSAs and ORSAAs where the student listed Oregon as their state of residence. Completed applications are a subset of all submitted FAFSAs and ORSAAs; applications that were rejected due to missing signature(s) and/or other errors are not included in the calculation of completion rates.

School Information

Completion rates are available only for public schools listed in the 2018-19 ODE Fall Membership Report with seniors enrolled. Private schools and home school students are not included. In some cases where schools have multiple branches, programs, or locations listed, data are combined under one school name.

School names, as entered by the applicant on the FAFSA/ORSA, were matched to the ODE school list using an automated process. Adjustments were made to account for variations in school names. Completion rates for a school reflect the aggregate number of applications completed across all known variations of the school's name. If a student did not list a high school name on the FAFSA/ORSA, the HECC attempted to determine their school name based on other internal HECC applications or records for that student. If a student entered a school name on the FAFSA/ORSA that could not be matched, the student's FAFSA/ORSA is excluded from the completion rate.

High school–level rates are suppressed for schools with 10 or fewer seniors in their 2018-19 class. Applications from these schools *are* included in the statewide completion rate.

High school–level rates are suppressed for schools with inconclusive results, where the HECC could not match any FAFSAs or ORSAAs based on the high school name. These schools are *not* included in the statewide completion rate.

Exact high school–level completion rates are not displayed for schools with a rate of less than 10%. These schools have a value of “<10%” as a placeholder for the completion rate. Applications from these schools *are* included in the statewide completion rate.

Exact high school–level completion rates are not displayed for schools with a rate of greater than 100%. These schools have a value of “100%+” as a placeholder for the completion rate. Applications from these schools *are* included in the statewide completion rate.

Approximately 2,066 seniors were enrolled in programs run by school districts or Education Service Districts that are not considered schools. FAFSA/ORSA completion rates are not available for these programs; they are not listed in the report nor included in the statewide completion rate.

Completion rates are shown in the following table, pages 3-14.

2019-20 FAFSA/ORSAA Completion Rate for Class of 2019 <i>As of 6/1/19</i>	School	District
--	Academy for Character Education	South Lane SD 45J3
63%	Academy of Arts and Academics	Springfield SD 19
62%	Academy of International Studies	Woodburn SD 103
35%	Adrian High School	Adrian SD 61
18%	Al Kennedy High School	South Lane SD 45J3
18%	Albany Options School	Greater Albany Public SD 8J
58%	Alliance Charter Academy	Oregon City SD 62
81%	Alliance High School	Portland SD 1J
64%	Aloha High School	Beaverton SD 48J
24%	Alsea Charter School	Alsea SD 7J
