

MISSION

The mission of the State Longitudinal Data System is to support objective analysis and reliable conclusions based on robust cross-sector*, longitudinal education data.

VISION

The State Longitudinal Data System provides actionable data to identify the impact of educational programs, policies, and investments to help individuals and communities in Oregon thrive.

VALUES

HUMILITY: Sharing what we know and admitting what we do not know allows for necessary conversations.

INTEGRITY: Revealing objective and unbiased findings, even when they challenge prevailing assumptions, empowers decision-making.

EQUITY: Achieving equitable outcomes requires a data system and research with an intentional priority placed on eliminating systemic barriers.

ACCOUNTABILITY: Preserving individual privacy and establishing a secure data system are essential to establishing accountability.

COLLABORATION: Respectfully collaborating with each other, various state government agencies, and key stakeholders will unlock the full capability of the system.

GROWTH: Effective data use requires an iterative process of growth to develop the capabilities and effectiveness of the data system and its use in research.

* Longitudinal data from across the entire education continuum (K-12, Higher Ed, Workforce, etc).
