Online Renewals

The Landscape Contractors Board (LCB) has transitioned to new licensing software which now offers online functionality for activities such as renewals. From this point forward, renewals will be processed online.

Using the self-service portal, you can do the following:

- Update your contact information;
- Renew your license (which becomes available approximately 60-days prior to the license expiration);
- Report continuing education;
- Print your license and wallet card; and
- Report unlicensed work.

What you need to do:

Log in to the licensee portal using your email address of record with the LCB. If you have an individual and business license, each will have its own login using the email of record for that license.

The self-service portals are mobile friendly and allow you to upload needed documents. It is suggested that you use Chrome or Firefox for your browser.

Below are links to the portals and instructions for accessing each:

**INDIVIDUALS (LCPs):**
- Individual (LCP) self-service portal
- Individual (LCP) license account activation and renewal process instructions
- Individual (LCP) license and wallet card printing

**BUSINESSES:**
- Business self-service portal
- Business license account activation and renewal process instructions.
- Business license and wallet card printing

If you receive a paper copy of this newsletter, you may access all of these links by going to: https://www.oregon.gov/lcb/Pages/Update.aspx

For questions, please email lcb.info@oregon.gov or call (503) 967-6291.

COVID-19 Resources

In order to support social distancing, and at the direction of the Department of Administrative Services, the LCB remains closed to public visitors through August 31, 2020. Please use the new online portals or contact one of our helpful staff for an alternate way to provide you service.

LCB has created a list of resources and other information which may be helpful:

Examinations

PSI test centers have reopened with limited availability. Please visit PSI’s website for up-to-date information about testing sites.

Continuing Education

The LCB has lists of pre-approved courses posted on its website. Several “face-to-face” courses may be on hold while some providers are working on converting these courses to virtual options. Be sure to check with providers when attempting to schedule. Check out the pre-approved online course list for online options!

Business Resources

Small Business Development Centers—SBDCs across the state provide free business counseling and resources. Counseling is available virtually, by phone, or video conference.

Business Oregon Small Business Navigator—Links to business planning, general resources, and financial assistance.

Financial Resources

Small Business Administration Disaster Loan Applications —The SBA provides small business loans. Contact the SBA Portland chapter for more information about SBA services.

Workshare Oregon—Workshare allows employers to leverage unemployment insurance (UI) to subsidize a portion of lost wages for employers whose work time is reduced due to market downturns or other business stressors.

Job and Safety

Job Health, Safety Resources for Oregon Contractors—Document produced jointly with OSHA and CCB.

Construction Contractors Board COVID-19 Health and Safety Resources for Contractors

Government

Small Business Owner’s Guide to the CARES Act—The Coronavirus Aid Relief and Economic Security to businesses and individuals affected by the pandemic.

Oregon Legislature—Check here for information about legislation relating to COVID-19.

OSHA COVID-19 Transportation Guidelines

OSHA is recommending the landscape and construction industry follow the transportation guidelines in the Temporary Administrative Rule Addressing the COVID-19 Public Health Emergency in Labor Housing and Agricultural Employment which makes for more than 1 person per vehicle if they can maintain 3 feet distance and wear a mask or cloth facial covering over their nose and mouth.

Temporary Administrative Rule Addressing the COVID-19 Public Health Emergency in Labor Housing and Agricultural Employment

(13) Section 3: Disease prevention in employer-provided transportation (a) During the current emergency and for activities covered by Section 1 of this rule, employers must ensure that the following disease prevention measures are implemented, at a minimum, when transportation is provided to and from the workplace or used to move individuals between workplaces: (A) The vehicle operator and any passengers must be separated by at least 3 feet during the operation of the vehicle. Seats that do not allow for such separation cannot be used, regardless of the vehicle’s normal capacity. (B) The vehicle operator and any passengers must wear cloth facial coverings that cover their nose and mouth. (C) All high-contact surfaces (door handles, seatbelt buckles, armrests, steering wheel, etc.) must be sanitized before each trip, or at least twice each day when in continuous use. (b) For workers who may commute to and from the worksite with individuals outside their household, the employer must advise them of the risks presented by close contact and encourage them to employ practices similar to those described in subsection (1) above.
