Rule: Housing in Unincorporated Communities

Comment: This proposed rule change is terrible. It will increase sprawl on farmland that is needed for growing food. It will increase density, on farmland, that does not have the available infrastructure, sewer or water capacity! It does not mandate affordable housing or limit the purchasing of second homes, and so will not actually address any housing limits, that ironically, have not been proven. I urge all parties to fully reject this proposal. Thank you for your time and consideration.
