Rule: Housing in Unincorporated Communities
Organization or affiliation (optional):
Comment: I am writing this to comment on the rule-making for unincorporated communities (UCs). My first question is - what are the current conditions of the UCs that show something like this is needed? You need to know what the situation (problem?) is before creating rules. You also need to know the characteristics of the UCs that your rules would affect. Don't create rules that make it harder for rural towns and cities to manage their infrastructure. Focus on what is best for the housing needs of people who live and work in rural communities, not people who want to build a second home or a vacation rental.
