

# Federal Consistency Portal

## Oregon Coastal Management Program

[ocmp.info/federalconsistency](https://ocmp.info/federalconsistency)

Launching on December 6, 2021

### Who is the Portal for?

Federal agencies and permit/license applicants proposing projects or actions within Oregon's coastal zone can use the Portal to apply for federal consistency, as specified by the Coastal Zone Management Act. The Portal contains information, resources, and digital tools for developing and submitting the required materials to initiate federal consistency review of direct federal actions and federal permits/licenses with reasonably foreseeable effects to Oregon's Coastal Zone.

### What does the Portal offer?

- ✓ **Application requirements**  
Review the necessary components of a federal action or license/permit application, the application timeline, and other relevant information to preparing your application.
- ✓ **Enforceable policy analysis generator**  
Use our original tool to generate a report of enforceable policies that are likely to apply to your project, based on your project's geographic location.
- ✓ **Resources for coastal effects analysis**  
Access several tools that may assist you in creating your coastal effects analysis, such as SeaSketch and the Oregon Shore Explorer.
- ✓ **Application submission**  
Begin formal federal consistency review by submitting your project information and materials using an easy online form.
