

ACTIVE TGM GRANT PROJECTS as of May 2, 2023

TGM-19 Active Grant Projects

- 2A-19 City of Albany [East Albany Plan](#) The East Albany Plan project (“Project”) will refine the City of Albany (“City”) Comprehensive Plan and Transportation System Plan (“TSP”). The Project will update and replace previously adopted neighborhood plans. The Project will increase development densities and the mix of land uses, improve connectivity between uses and improve conditions for walking, cycling, and riding transit. The Project will help the City make more efficient use of existing urban land and transportation infrastructure, plan for related transportation investments, and delay the need for future Urban Growth Boundary expansions.

TGM-20 Active Grant Projects

- 1A-20 City of Estacada [TSP Update](#) The Transportation System Plan Update project (“Project”) is an update to all elements of the City of Estacada’s (“City”) Transportation System Plan (“TSP”), which was adopted in 2007. While parts have been updated – in 2011, 2016, and 2018 - much remains out-of-date and not informed by recent analyses and public input, nor by changes in population, development, and land use plans. A fully Updated TSP must allow the City to address gaps in existing plans as well as identify and plan for the community’s emerging needs, preferences, and goals.
- 1B-20 City of Troutdale Main Streets on Halsey Cross Section and Street Design Plan Halsey Street is integral to the mobility, equity, and economic growth of the three cities it connects: Fairview, Troutdale and Wood Village. In 2015, leaders from these cities came together in a ground-breaking partnership with Multnomah County to launch the Project. The Project is an effort for a strategic economic action plan that outlines a vision for the Project corridor and created a roadmap to transform the stretch of Halsey from just west of Fairview Parkway through downtown Troutdale into a vibrant, attractive, pedestrian and bike-friendly “main street”. The Project seeks to transform the three-mile stretch of NE Halsey Street from a busy, nondescript, car-dominated arterial into a vibrant, attractive, pedestrian and bike-friendly “main street.” Halsey Street should feature public gathering spaces, new housing, and bustling shops and restaurants. Four local governments – the City of Troutdale (“City”) the cities of Fairview and Wood Village, and Multnomah County (“Local Jurisdictions”), will design a unique streetscape, revise Multnomah County’s street cross section, and develop a ten percent (10%) design plan for the Project corridor.

1D-20	City of Tigard	Downtown Reimagined	The purpose of the Project is to integrate Downtown Tigard’s historic roots with contemporary development patterns and respond to community needs for more housing and multimodal travel options. Building upon previous and concurrent planning efforts, this project aims to modernize the City’s approach to development, transportation, and equity by providing recommendations for policies, financial investment, and code changes that: support Transit Oriented Development (“TOD”); set new equity and climate policy and implementation goals; provide quality walking, cycling and transit choices; and create a vibrant community through strategic investments
1E-20	Clackamas County	Walk Bike Clackamas Plan	The Walk Bike Clackamas Plan (“Project”) must update the Clackamas County (“County”) Pedestrian & Bicycle Master Plans resulting in a consolidated plan, which will be an amendment to the Clackamas County 2013 TSP. The Walk Bike Clackamas Plan must provide comprehensive guidance on active transportation investments and policy in order to create a balanced, connected and safe transportation system. The Project purpose is to establish a comprehensive, long-term vision for improving walking and biking opportunities in Clackamas County.
2A-20	City of Cottage Grove	Pedestrian and Bicycle Plan	This Project will develop a Cottage Grove Pedestrian and Bicycle Plan (“CGPBP”) to promote safe, convenient and accessible pedestrian and bicycle circulation within the community. The CGPBP will address concerns over safety, accessibility, connectivity, community health, and economic vitality. The CGPBP will implement Complete Streets designs for public rights-of-way and public facilities as described by the U.S. Department of Transportation at https://www.transportation.gov/mission/health/complete-streets . The City of Cottage Grove (“City”) will seek adoption of the CGPBP as a refinement to the Cottage Grove Transportation System Plan (“TSP”), adopted in 2015.
2B-20	City of Florence	TSP Update	The Project must prepare an update to the City of Florence (“City”) Transportation System Plan (“TSP”) adopted in 2012. The Updated TSP must identify an integrated network of multi-modal transportation facilities and services needed to support City’s planned land uses. The Project must address transportation planning needs both within City limits and the Urban Growth Boundary.
2C-20	City of Sweet Home	Transportation System Plan Update and North Sweet Home Area Refinement Plan	This project is to update the City of Sweet Home’s (“City”) Transportation System Plan (“TSP”), adopted in 2005 (the “Project”). The updated TSP must identify an integrated network of multi-modal transportation facilities and services needed to support City’s planned land uses. The Project will also produce a refinement plan for the North Sweet Home Area (“NSHA”) in close coordination with the TSP update. The updated TSP will plan for the transportation network needed to accommodate residential and employment growth.

2D-20	Lane Council of Governments	Link Lane Public Transit Development Plan	Link Lane is the Public Transportation Service Provider (“PTSP”) unit of the Lane Council of Governments (“LCOG”). Link Lane originated and is operating to fill a critical public transportation need to connect coastal communities with each other and the Eugene urban area. Link Lane Public Transit Development Plan (“Project”) will develop a Transit Development Plan (“TDP”) to 1) define Link Lane as a PTSP under Oregon law; 2) understand community needs; 3) identify transportation barriers, 4) develop implementation strategies to address identified barriers, and 5) identify funding opportunities consistent with the implementation strategies.
3A-20	City of Roseburg	Bike Routes Plan	The purpose of City of Roseburg’s (“City”) Bike Routes Plan (“BRP”) (“the Project”) is to provide a plan for implementing a designated bicycle route system throughout City. BRP must identify ways to increase bicycle trips by establishing and mapping designated bicycle routes throughout City and supplementing routes with mapping, route signage, and thermoplastic striping to aid in wayfinding. BRP must also result in tools to address gaps in City’s bicycle network, with the outcome of establishing a better connected, safer, and inviting bicycle route network between existing bike lanes and the Umpqua River Trail, the City’s multi-use path.
5A-20	Confederated Tribes of the Umatilla Indian Reservation	TSP Update	The Confederated Tribes of the Umatilla Indian Reservation (“CTUIR”) Transportation System Plan (“TSP”) serves as the CTUIR’s policy guide for future transportation development, laying out both conceptual frameworks for transportation decision making, and concrete implementation priorities. The current CTUIR TSP was adopted in 2001 and has received few updates since then. The TSP Update (“Project”) will evaluate multi-modal transportation changes from the past 20-years to plan for the next 20-years, including new population and transportation growth projections, and community-driven priority-setting. Project will incorporate changes to the Kayak Public Transit system, the Gateway commercial development hub, the new tribal Mission services hub, and July Grounds community hub. Community members and local road jurisdictions will be consulted extensively about the character of a modern transportation network via digital tools as Covid-19 safety requires, and in-person engagement when possible.

TGM-21 Active Grant Projects

2C-21	City of Independence	Central Talmadge Plan	The purpose of the Central Talmadge Plan project (“Project”) is to provide formal guidance as the Study Area transitions from the existing Central Talmadge, a vehicle-oriented strip used for daily commerce, to a mix of uses, including residential. The Project also aims to support the development of high-quality bicycle and pedestrian infrastructure, allowing people to access daily needs without a personal automobile
-------	----------------------	-----------------------	---

2E-21	City of Turner	TSP Update	<p>The City of Turner (“City”) Transportation System Plan Update Project (“Project”) will replace the City’s Transportation System Plan (“TSP”) adopted in 1999. Project will identify policies, programs, and improvements needed to improve conditions for all travel modes, support planned land uses, and support economic development. Updated TSP will serve expected growth, support community goals and address needs for travel options, equity and climate change. Project will assure consistency of the Updated TSP with state policies, plans, and rules including Oregon Administrative Rules Chapter 660, Division 12, commonly known as the Transportation Planning Rules (“TPR”). Project will work to ensure that the Updated TSP is coordinated with and consistent with adopted regional transportation plans including the Marion County TSP and the Salem-Keizer Area Transportation Study (“SKATS”), the designated Metropolitan Planning Organization</p>
3A-21	City of Bandon	TSP Update	<p>The City of Bandon Transportation System Plan Update (“Project”) will update the Transportation System Plan (“TSP”) for the City of Bandon (“Bandon” or “City”), that was adopted in 2000. The updated TSP (“Updated TSP”) must identify an integrated network of multi-modal transportation facilities and services that will be adequate to support development of the City’s existing and planned land uses over a twenty-year planning horizon. The Project must address transportation facility needs within City limits and the Urban Growth Boundary (“UGB”). The City has identified US Highway 101 redesign and beautification, access management, and future movement to and through an unincorporated area within the City’s UGB that is surrounded by the city (“the Donut Hole”) as high priorities for the Updated TSP. The Updated TSP must meet the requirements of the Transportation Planning Rules (“TPR”).</p>

5A-21	City of Elgin	Elgin-to- Lookingglass Joseph Branch Trail- With-Rail Refinement Plan	The Elgin-to-Lookingglass Joseph Branch Trail-With-Rail Refinement Plan Project (“Project”) will develop Trail-With-Rail and Trailhead/Pocket Park Plan, a refinement plan for the inaugural 13+ mile Elgin-to-Lookingglass segment of a longer, proposed 63-mile trail-with-rail. The longer proposed 63-mile trail-with-rail will run alongside the existing railroad between City of Elgin (“City”) and City of Joseph, connecting popular recreational sites and rural communities in Union County (“County”) and Wallowa County. The trail will provide an alternative to Oregon Route 82, improve multimodal transportation options for underserved communities, and present an opportunity to help draw people to the Eagle Cap Excursion Train. The inaugural segment will start at the Wallowa Union Railroad Authority (“WURA”) Train Depot in downtown Elgin and continue out of town to County’s eastern border with neighboring Wallowa County. Project outcome will be a detailed trail-with-rail refinement plan that addresses alignment, safety, general design, crossings, adjacent landowner concerns, and tailored to fit within the existing WURA railway corridor 100-foot right-of-way (“ROW”) and contiguous public lands. Project will assist the City, County, WURA and Joseph Branch Trail Consortium (“JBTC”) to streamline design and engineering and to leverage future funding for the full trail.
-------	---------------	---	---

TGM-21 Grant Projects in Process but not Executed

1A-21	City of Gresham	TSP 2045
1B-21	City of Milwaukie	TSP Update
1C-21	City of Tigard	Electric Vehicle Strategy
1D-21	Washington County	Farmington Corridor Concept and Jurisdictional Transfer Framework Plan
2A-21	City of Dallas	Mill Site Redevelopment Plan
2B-21	City of Harrisburg	TSP Update
2D-21	City of Newport	City Center Revitalization Project
3B-21	City of Medford	Downtown 2040 Plan
4A-21	City of Klamath Falls	Urban Area TSP Update

TGM-22 Grant Projects in Development

1A-22	City of Beaverton	TSP Update
1B-22	City of North Plains	Urban Growth Boundary Concept Planning
1C-22	City of Portland	Green Loop Concept Plan
2A-22	City of Carlton	TSP Update
2B-22	City of Corvallis	West Corvallis Specific Area Plan
2C-22	City of Tangent	TSP Update
2D-22	Marion County	Rural Transportation System Plan
3A-22	City of Grants	6th and 7th Street Multimodal Corridor Study Pass
4A-22	City of Maupin	Street Design Standards Plan Update
5A-22	City of Wallowa	Joseph Branch Trail-With-Rails - Wallowa Section
5B-22	Umatilla County	TSP Update
