

# Oregon's Housing Initiatives: How Will They Affect Our Communities?

**Tuesday, February 11, 1 pm - 3 pm**

City of Redmond Public Works  
243 E Antler Avenue, Redmond, OR

Light lunch provided \* All Ages Welcome

**Parking is located on-site**

*Special accommodations are available, upon request, for persons with disabilities or those needing sign language interpretation, or languages other than English. Spanish interpretation will be provided. Please contact [housing.dlcd@state.or.us](mailto:housing.dlcd@state.or.us) up to 48 hours in advance to request accommodations.*

*Join Department of Land Conservation and Development (DLCD) staff and local leaders to discuss new housing initiatives in Oregon. DLCD is holding roundtable discussions to collect guidance and hear concerns from affected communities as the state advances our shared work to encourage a variety of housing types to provide residents more diverse housing choices.*

**Why now?** The Oregon Legislature passed two significant housing bills in the 2019 legislative session – House Bill 2001 and 2003. The Legislature passed these bills to provide additional housing choices and to help ensure housing production.

**Purpose** – DLCD will provide community members and city staff information about the two new housing bills and receive community guidance on topics that should be considered early in the process.

**Contacts:** Ethan Stuckmayer  
DLCD Senior Housing Planner
