State Librarian
State Library of Oregon

The State Library of Oregon's strategic plan, as approved by the State Library Board, will guide the work of the State Library over the next three years. This plan is the culmination of engagement with stakeholders and staff to determine priority needs and interests. A new vision and mission along with updated values will center the State Library's focus and work in the coming years.

The strategic plan will be a living document, with revisions made as necessary to reflect a changing landscape. Adopted just as the COVID-19 pandemic began having widespread impacts throughout Oregon, it is certain that needs and priorities will emerge as the impacts of the pandemic continue to become more fully known and experienced. Given what we know at this time about the needs of our users and communities, these are the highest priority initiatives:

- **Equity, Diversity, and Inclusion:** Host trainings and establish resources that support staff in developing, building, and utilizing EDI competencies. Develop and implement an equity lens for State Library use in reviewing and creating policies, programs, and services that remove barriers and address potential bias.
- **Workforce Recovery and Development:** Develop strategies and initiatives to assist libraries as they enhance and grow workforce development programming and activities. Work with state and regional workforce development agencies and organizations to identify collaborative opportunities with local libraries.
- **Continuing Education for the Library Community:** Improve the State Library's continuing education program for library staff across Oregon through programming that is relevant and responsive to user needs.
- **Talking Book and Braille Library Service Enhancement:** Expand title selection and reduce wait times for Talking Book and Braille Library users by implementing the Duplication On-Demand service model.
- **Service to State Employees:** Enhance the user experience for state employees and the Legislature by upgrading the State Library's account management and related systems. Migrate the Government Services patron database from its legacy platform to a sustainable integrated system.
