RE: CPT Codes and Scope of Practice

MEMORANDUM

The Oregon Board of Chiropractic Examiners (OBCE), the agency that regulates, licenses, and determines scope of practice for Oregon licensed Doctors of Chiropractic (DCs) and Certified Chiropractic Assistants (CAs), held a special board meeting on November 13, 2025, to hear public comment regarding recent policy updates, practices, and apparent confusion of certain health insurance carriers regarding which services are considered covered under a chiropractic license and chiropractic assistant certificate. Essentially, whether certain CPT codes associated with practice modalities are within the scope of practice for these licensed professionals.

The Board voted to issue this guidance for the purpose of clarification around scope of practice.

ORS 684.010 to 684.990 govern the practice of chiropractic in Oregon. ORS 684.010(2) defines “Chiropractic”, ORS 684.010(5) defines minor surgery, and ORS 684.155(1)(c) to (d) authorize the Board to establish standards for chiropractic assistants and the use of ancillary personnel. As such, the following modalities are within the scope of practice of DCs and CAs:
