STATEMENT OF PURPOSE

The purpose of this exam procedure is to evaluate each candidate's qualifications to practice in this state as defined by Chapter 684 of the Oregon Revised Statutes also known as "The Chiropractic Practice Act".

Licensure in Oregon is not a "right", but rather a privilege granted to those who demonstrate competency as required by ORS 684.050(4). Graduation from a CCE college in itself does not certify competency in those areas defined by the broad-scope Oregon practice act, nor necessarily does experience in practice under other state jurisdictions.

Trick questions are not intended. The object is to protect the public welfare by licensing only qualified chiropractors who demonstrate the knowledge and skills required under ORS Chapter 684. Test items are specifically devised to determine whether "adequate competency" can be demonstrated by the candidate. Your competency is measured by appropriate responses to academic and clinical examination.

Public expression of personal performance anxiety and hysteric conversion reactions are discouraged. Demonstrate your ability to think and act like a Chiropractic physician by maintaining professional conduct while understanding and accepting Oregon licensing protocol.

"Look at the BIG picture..."
"Get off your wishbone,
Stick out your jawbone,
Straighten up your backbone...
and get to work..."
