

Oregon State Situation Report

2024 HPAI OUTBREAK

Current as of December 2, 2024

Since October 1, 2024, there have been **5 additional positive premises in Oregon.**

PREMISES QUARANTINES

Confirmed positive premises are quarantined for a minimum of 120 days on average, although shorter quarantines may be utilized depending on the Cleaning and Disinfection (C&D) methods applicable to the premises.

ACTIVE REGIONAL QUARANTINES (CONTROL ZONES)

Established for World Organization for Animal Health (WOAH) designated poultry premises. Regional quarantines extend a minimum 10 km around an infected premises with movement restrictions on poultry and poultry product. Regional quarantines involve permitted movements and active surveillance for the designated area.

SURVEILLANCE ZONES

A 10km to 20 km zone around an infected premises that collected data on nearby poultry premises and numbers. Surveillance zones are either active, where response staff reach out for information, for WOAH designated poultry premises, or passive, where information is self-reported by producers, for non-poultry WOAH designated premises.
