

# Scrapie Official Identification Requirements

FOR SHEEP AND GOATS LEAVING THE FARM OF ORIGIN - OAR 603-011-1450

Oregon's official identification requirements for sheep and goats apply when the animal first leaves the farm of origin, regardless of whether the animal is moving within the State of Oregon or to another state. If moving animals interstate, the destination state may have additional requirements.

Regardless of age or sex, all sheep and goats that are intended for exhibition must be officially identified. For more information on Scrapie, acceptable official identification for sheep and goats, or the Scrapie flock registration program in Oregon, visit <https://oda.direct/scrapie>.
