

## Reporting Requirements\*

Report immediately by telephone upon clinical suspicion - (503) 986-4711

Report within 15 days via the ODA monitored disease reporting form

<https://oda.direct/diseases>

## REPORTABLE DISEASES

### Viral Diseases

-  African Horse Sickness
-  African Swine Fever
-  Akabane
-  Avian Infectious Bronchitis
-  Avian Infectious Laryngotracheitis
-  Bluetongue
-  Bovine Viral Diarrhea
-  Camel pox
-  Canine Distemper Virus
-  Canine Parvovirus
-  Caprine Arthritis and Encephalitis
-  Classical Swine Fever
-  Crimean-Congo Hemorrhagic Fever
-  Duck Viral Hepatitis (Domestic Poultry)
-  Enzootic Bovine Leukosis
-  Epizootic Hemorrhagic Disease
-  Equine Encephalitis Viruses (Eastern, Venezuelan, Western)
-  Equine Enteric Coronavirus
-  Equine Infectious Anemia
-  Equine Herpesvirus 1 (EHV-1)
-  Equine Viral Arteritis
-  Feline Immunodeficiency Virus (FIV)
-  Feline Infectious Peritonitis (FIP)
-  Feline Leukemia Virus Disease Complex (FeLV)
-  Feline Panleukopenia
-  Foot and Mouth Disease (FMD)
-  Hendra Virus
-  Infectious Bovine Rhinotracheitis/Infectious Pustular Vulvovaginitis
-  Infectious Bursal Disease/Gumboro Disease
-  Influenza A Virus
-  Japanese Encephalitis
-  Lumpy Skin Disease
-  Lymphocytic Choriomeningitis (LCM)
-  Maedi-Visna/Ovine Progressive Pneumonia
-  Malignant Catarrhal Fever
-  Myxomatosis
-  Nairobi Sheep Disease
-  Newcastle Disease (Domestic Poultry)
-  Nipah Virus
-  Peste des Petits Ruminants
-  Porcine Reproductive and Respiratory Syndrome (PRRS)
-  Pseudorabies (Aujeszky's Disease)
-  Rabbit Hemorrhagic Disease Virus (RHDV)
-  Rabies
-  Rift Valley Fever
-  Rinderpest
-  SARS-CoV-2
-  Sheep Pox and Goat Pox

-  Swine Enteric Coronavirus Diseases (PEDv, PDCoV)
-  Swine Vesicular Disease
-  Transmissible Gastroenteritis
-  Turkey Rhinotracheitis (Domestic Poultry)
-  Vesicular Exanthema of Swine
-  Vesicular Stomatitis
-  Virulent Systemic Feline Calicivirus
-  West Nile Virus

### Bacterial Diseases

-  Anaplasmosis (Anaplasma marginale, A. centrale)
-  Anthrax
-  Avian Chlamydiosis/Psittacosis
-  Avian Mycoplasmosis
-  Bartonellosis/Cat Scratch Disease
-  Bovine Genital Campylobacteriosis
-  Bovine Tuberculosis
-  Brucellosis
-  Brucellosis in Sheep/Ovine Epididymitis
-  Campylobacter-Associated Abortion
-  Contagious Agalactia
-  Contagious Bovine Pleuropneumonia
-  Contagious Caprine Pleuropneumonia
-  Contagious Equine Metritis
-  Enzootic Abortion of Ewes
-  Foothill Abortion in Cattle/Epizootic Bovine Abortion
-  Fowl Typhoid
-  Glanders
-  Heartwater
-  Hemorrhagic Septicemia
-  Infectious Coryza
-  Johne's Disease/Paratuberculosis
-  Leptospirosis
-  Lyme Disease
-  Melioidosis
-  Pigeon Fever/Ulcerative Lymphangitis/Caseous Lymphadenitis
-  Plague (Yersinia pestis)
-  Pullorum Disease
-  Q Fever
-  Rocky Mountain Spotted Fever
-  Salmon Poisoning Disease
-  Salmonella Abortusovis
-  Salmonella Enteritidis
-  Salmonella Typhimurium
-  Strangles
-  Streptococcus equi subspecies zooepidemicus
-  Tularemia
-  Yersiniosis (Yersinia enterocolitica, Y. pseudotuberculosis)

### Parasitic Diseases

-  Babesiosis
-  Baylisascariasis
-  Cryptosporidiosis
-  Cysticercosis
-  Dourine
-  Echinococcosis/Hydatidosis
-  Equine Piroplasmiasis
-  Giardiasis
-  Heartworm Disease
-  Leishmaniasis
-  Mange (Sarcoptes scabiei var ovis, Chorioptes bovis, Psoroptes ovis, Psoroptes cuniculi, Psorobia ovis)
-  Mange (Sarcoptes scabiei variants that are not immediately reportable)
-  New World Screwworm
-  Old World Screwworm
-  Surra
-  Theileriosis
-  Toxoplasmosis
-  Trichinellosis
-  Trichomoniasis
-  Trypanosomiasis (Tsetse-Transmitted)

### Prion Diseases

-  Bovine Spongiform Encephalopathy (BSE)
-  Chronic Wasting Disease (CWD)
-  Scrapie

### Fungal Diseases

-  Coccidioidomycosis/Valley Fever
-  Cryptococcosis
-  Histoplasmosis
-  Systemic Fungal Diseases

### Other

-  Any of the following abnormalities:
  - Any unidentified vesicular disease
  - Any exotic disease or foreign animal disease, even if only suspected
  - Any disease of unknown etiology exhibiting highly pathogenic or lethal effect
  - Any exotic vector (flies, fly larvae, mites, ticks)
  - Any disease, infection, or infestation in domestic or wild animals that is a threat to terrestrial animals, aquatic animals, or humans, and meets any one of the following criteria:
    - An unknown agent is causing disease in a herd, flock, or premises and has the potential to result in a significant animal or public health impact, and applied diagnostic tests have yielded negative or non-definitive results; or
    - A newly identified agent is causing disease in a herd, flock, or premises and has the potential to cause significant animal or public health impact, or is occurring in multiple herds, flocks, or premises; or
    - A previously identified or known pathogenic agent that has a change in epidemiology.

\*This is a summary of diseases (by common name) required by law to be reported by veterinarians. Oregon Administrative Rules (603-011-0214 - 603-011-0216) outline the complete lists of diseases of interest to the state and reporting requirements.
